Further details on the disability support scheme can be found at the 3 Disability Liaison Unit website : 4 <a href="http://www.services.unimelb.edu.au/disability/">http://www.services.unimelb.edu.au/disability/</a>   |
| <b>Coordinator:</b>                      | Dr Paul Badcock   |
| <b>Contact:</b>                          | Andrea Krelle, <a href="mailto:andrea.krelle@mcri.edu.au">andrea.krelle@mcri.edu.au</a>   |
| <b>Subject Overview:</b>                 | <p>This subject begins by examining the underlying assumptions, values, experiences, skills, forms of knowledge and broader contexts that impact on and inform students' professional practice approach in working with young people. Using critical incidents and case studies as a starting point, students will explore some of the key frameworks and interventions for working with young people to improve health outcomes. These include:</p> <ul style="list-style-type: none"> <li># risk and resiliency frameworks;</li> <li># effective practice strategies;</li> <li># approaches to crisis intervention;</li> <li># issues related to professional role boundaries, ethical practice and cross-sectoral networking.</li> </ul> <p>Students will be required to draw on theoretical perspectives and ideas from contemporary research as well as insights generated through critical reflection, online discussions and collaborative problem-solving. Through this critical enquiry process, it is expected that students will further develop their understandings of their own practice and change and develop aspects of that practice.</p> |
| <b>Objectives:</b>                       | <p>This subject is designed to enable students to:</p> <ul style="list-style-type: none"> <li># articulate and critically examine their own understandings of professional practice in working with young people in a variety of contexts;</li> <li># identify and critically reflect on the factors which impact on and influence practitioners and young people;</li> <li># compare the professional settings and services which interact with young people and explore potential strategies to enhance inter-agency collaboration, communication and referral;</li> <li># review current practice against established ethical, legal and confidentiality principles / criteria and suggest appropriate strategies to improve aspects of practice;</li> </ul>   |

|                           |   |
|---------------------------|---|
|                           | <ul style="list-style-type: none"> <li># evaluate and apply different theoretical frameworks, research perspectives and professional practice strategies to inform decision making in working with young people in a range of contexts;</li> <li># analyse and apply resiliency, risk and protective frameworks;</li> <li># critically examine methods of conducting a cooperative strengths-based assessment with a young person.</li> </ul>   |
| <b>Assessment:</b>        | Hurdle Requirement(Satisfactory/Unsatisfactory) : Introductory learning activity: Two pieces of reflective writing (Max: 400 words each) - Submitted to Online Discussion Topic; 60% : Risk and Resiliency Case Study Investigation and Written Report (Max: 1,800 - 2,000 words) - Due mid semester; 40% : Intervention Case Study Investigation and Written Report (Max: 1,100 - 1,300 words) - Due end of semester.  |
