Subject Overview:	<p>This subject will use a variety of delivery tools including in-class lecture, case analysis, problems, invited expert seminars etc. This will include modules on science, health, economics, politics & law, social issues relating to food and food security. The primary aim in this year is to engage the students in broad range of issues associated with food and food future. A particular emphasis will be the cultural dimensions of food. In this course the students would become familiar with the key literature in the area, and the roles of key food regulatory organizations.</p> <p>The topics to be covered include:</p> <ul style="list-style-type: none"> # Multicultural origins of foods # Designer foods such as nutraceuticals and functional foods # Food history & ancient foods # Global food security and famine # Food production systems & multi food supply chain # Economics of food & Australian food imports and exports # Adverse reactions to food, food and immune system, food allergy & food safety # Organic foods & genetic modification and GM food labelling # Food and sport issues # Food laws & politics of food # Health issues – the obesity epidemic 						

Objectives:	<p>At the completion of this subject, students will be better able to:</p> <ul style="list-style-type: none"> # Analyse the nutritional benefits of a range of foods; # Incorporate consideration of global food politics, security and sustainability in applying expertise in other knowledge domains; # Critically evaluate use of biotechnology in production, safety and quality of food for a healthy planet.
Assessment:	An essay (2000 words), worth 20%, due week 8. A mid-semester test (1 hour), approximately at end of week 6, worth 20%. Final exam (2 hours) exam in the examination period (60%).
Prescribed Texts:	A reading pack will be produced and made available as hard copy or through the LMS online.
Breadth Options:	<p>This subject potentially can be taken as a breadth subject component for the following courses:</p> <ul style="list-style-type: none"> # Bachelor of Arts (https://handbook.unimelb.edu.au/view/2010/B-ARTS) # Bachelor of Biomedicine (https://handbook.unimelb.edu.au/view/2010/B-BMED) # Bachelor of Commerce (https://handbook.unimelb.edu.au/view/2010/B-COM) # Bachelor of Environments (https://handbook.unimelb.edu.au/view/2010/B-ENVS) # Bachelor of Music (https://handbook.unimelb.edu.au/view/2010/B-MUS) # Bachelor of Science (https://handbook.unimelb.edu.au/view/2010/B-SCI) # Bachelor of Engineering (https://handbook.unimelb.edu.au/view/2010/355AA) <p>You should visit learn more about breadth subjects (http://breadth.unimelb.edu.au/breadth/info/index.html) and read the breadth requirements for your degree, and should discuss your choice with your student adviser, before deciding on your subjects.</p>
