<b>Overview:</b>	<p>The global health specialisation places particular emphasis on health in resource limited settings. By exploring key areas of global health, students who undertake subjects within this specialisation will gain a critical understanding of the global issues which impact the health of people in low and middle income populations. Moreover, students will develop skills required to respond to important health issues via needs assessment, program planning, implementation and evaluation, and the application of these in a global setting. Students may also apply to undertake a Research Project in Global Health in any area of interest.</p> <p>The specialisation is suitable for people who are currently working in global health, students from low and middle income countries, and those interested in gaining qualifications that will enable them to develop and implement best practice responses to global health issues. It will assist people planning to work with international aid/development agencies and NGOs.</p>																													
<b>Objectives:</b>	-																													
<b>Structure &amp; Available Subjects:</b>	200 Point Program: SIX core subjects and TEN elective subjects or EIGHT elective subjects and either a Research Project or Professional Practice unit of 25 points. 175 Point Program: SIX core subjects and EIGHT elective subjects or SIX elective subjects and either a Research Project or Professional Practice unit of 25 points. 150 Point Program: FIVE core subjects and SEVEN elective subjects or FIVE elective subjects and either a Research Project or Professional Practice unit of 25 points.																													
<b>Subject Options:</b>	<p><b>Core Subjects</b></p> <p>Student must complete POPH90217 unless they have been granted 50 points Advanced Standing (150 point program) or an exemption has been granted.</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>POPH90217 Foundations of Public Health</td> <td>Semester 1</td> <td>12.50</td> </tr> <tr> <td>POPH90014 Epidemiology</td> <td>March</td> <td>12.50</td> </tr> <tr> <td>POPH90013 Biostatistics</td> <td>Semester 1</td> <td>12.50</td> </tr> <tr> <td>POPH90231 Surveys and Qualitative Methods</td> <td>Semester 2</td> <td>12.50</td> </tr> <tr> <td>POPH90218 Public Health Leadership and Management</td> <td>July</td> <td>12.50</td> </tr> <tr> <td>POPH90227 Public Health in Practice</td> <td>Not offered 2011</td> <td>12.50</td> </tr> </tbody> </table> <p><b>Highly Recommended Electives</b></p> <p>Students cannot enrol in both POPH90137 and POPH90131.
