Course Overview:	<p>The three year Bachelor of Dance course consists of specialist studies in dance as well as theoretical and cross-disciplinary collaborative studies in the Centre for Ideas.</p> <p>Specialist Studies</p> <p>Studio practice provides the foundation for developing the dance artist at the VCA. Daily technique classes in ballet and contemporary dance form the paradigm for training versatile, kinaesthetically, intelligent dance artists and are closely interrelated with studies in choreography and performance. Students in their first and second year of study may elect from a selection of Allied Dance Studies, giving them the flexibility to pursue their own interests in contemporary dance or ballet. Allied Dance Studies includes Duo, Pas de Deux, Ballet Repertoire, Contemporary Repertoire, Improvisation and Pointe. Students also undertake studies in Performance Management, Career Planning and Management, Music, Dance Analysis, Kinetic Studies and Production as part of the specialist dance program.</p> <p>Throughout the course students have regular performance experience replicating the professional environment.</p> <p>Students are encouraged to take risks and challenge their own practice by engaging with new processes and physical methodologies.</p> <p>By third year there is a greater emphasis on developing artistic autonomy. By working with emerging and leading Australian choreographers in preparation for the diverse challenges of current dance practice students maximise their potential to become dancers of technical excellence and artistry.</p>								
Objectives:	<p>The objectives of the course are:</p> <ul style="list-style-type: none"> # to produce professional dance practitioners including performers, choreographers, collaborators and artistic leaders with a high degree of expertise; # to encourage the simultaneous development of students' conceptual and technical abilities by providing practical and theoretical dance studies across various aesthetic domains; # to foster a spirit of inquiry and initiative towards the development of dance; # to encourage individual talents in both performance and creativity; # to encourage students to develop an awareness of their relationship and responsibility to their cultural environment and society by providing opportunities for informed critical enquiry, social interaction and cultural exploration during their studies; # to enable students to prepare themselves for postgraduate study.
