Subject Options:	<p>Core subjects</p> <p>Two core economics subjects:</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>ECON40001 Advanced Microeconomics</td> <td>Semester 1</td> <td>12.50</td> </tr> <tr> <td>ECON40002 Advanced Macroeconomics</td> <td>Semester 1</td> <td>12.50</td> </tr> </tbody> </table>			Subject	Study Period Commencement:	Credit Points:	ECON40001 Advanced Microeconomics	Semester 1	12.50	ECON40002 Advanced Macroeconomics	Semester 1	12.50
Subject	Study Period Commencement:	Credit Points:										
ECON40001 Advanced Microeconomics	Semester 1	12.50										
ECON40002 Advanced Macroeconomics	Semester 1	12.50										

Quantitative subject**One of:**

Subject	Study Period Commencement:	Credit Points:
ECOM30002 Econometrics	Semester 1	12.50
ECOM40006 Econometric Techniques	Semester 1	12.50

Elective subjects**Five elective subjects:**

Selected from third year (level three), fourth year (level four), diploma level and advanced offerings of the Faculty as approved by the Academic Director of the program. An elective subject may not be taken if a candidate has previously completed a subject of similar content. Note that some fourth year (level four) subjects are not available to Diploma students.

Entry Requirements:

- The Selection Committee will evaluate the applicant's ability to pursue the course successfully using the following criteria:
 - # An undergraduate or postgraduate degree with a strong analytical or mathematical component and with at least H2B (70%) average;
 - # The applicant's submitted statement of intent in seeking entry; and
 - # Performance on the GRE unless the applicant has met one of the approved conditions for GRE exemption.
- The Selection Committee may conduct interviews and tests and may call for referee reports or employer references to elucidate any of the matters referred to above.

Notes:

(a) To meet the analytical or mathematical prerequisite requirements, applicants with an economics background will normally be required to have a major in economics including calculus-based economics subjects plus an econometrics subject with at least H2A (75%) average across the major. Applicants from a non-economics background require an undergraduate major of a mathematical/analytical nature with at least H2A (75%) average across the major.

Core Participation Requirements:

The Faculty of Business and Economics welcomes applications from students with disabilities. It is University and Faculty policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the Faculty's programs. The BCom and Masters degrees of the Faculty of Business and Economics equip graduates with the knowledge and technical skills necessary to understand and participate in the modern business world. The degrees include the following academic requirements for study: (1) The ability to explain and evaluate concepts, theories, institutional arrangements and operations of modern mixed economies; (2) The ability to critically evaluate the economy, commerce and business in the broader social and political context; (3) The ability to explain and apply concepts across a range of commerce and business disciplines in solving business and policy problems; and (4) The ability to contribute positively to the development of organisations and society in relation to business, government and the commercial professions. All students of the Faculty's courses must possess intellectual, ethical, and emotional capabilities required to participate in the full curriculum and to achieve the levels of competence required by the Faculty. Candidates for the BCom degree and for FBE Masters degrees must have abilities and skills in communication; in conceptual, integrative, and quantitative dimensions; and in behavioural and social dimensions. I. Communication: The student must be able to communicate effectively and efficiently in oral and/or written form. A student must have the ability to clearly and independently communicate knowledge and application of a discipline, principles or practices during assessment tasks, and in some discipline streams. II. Intellectual#Conceptual, Integrative and Quantitative Abilities: The student is expected to have the ability to develop problem#solving skills and demonstrate the ability to establish study plans and priorities. These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving requires all of these intellectual abilities. Students should also have the ability to comprehend complex disciplinary and cross disciplinary information related to the BCom and Masters degrees. III. Behavioural and Social Attributes: A student must possess behavioural and social attributes that enable them to participate in a complex learning environment and the emotional health required for full utilisation of his/her intellectual abilities. Students are required to take responsibility for their own participation and learning. They also contribute to the learning of other students in collaborative learning

	<p>environments, demonstrating interpersonal skills and an understanding of the needs of other students. Assessment may include the outcomes of tasks completed in collaboration with other students. Integrity, concern for others, interpersonal skills, interest, and motivation are all personal qualities that are deemed necessary for students enrolled in FBE courses. Students who feel their disability will prevent them from participating in tasks involving the inherent academic requirements of the BCom and FBE Masters courses are encouraged to contact the Disability Liaison Unit. Adjustments can be provided to minimise the impact of a disability, but students should participate in the course in an independent manner.</p>
<p>Graduate Attributes:</p>	<p>On successful completion of this degree graduates will be: Receptive to alternate ideas through a review of the literature and through class participation and assessment; Ethical in their approach to research and work practices; Advanced in their use, critical evaluation and testing of economics models and in forecasting and assessing business and government policy options; Adept in statistical reasoning through completion of core quantitative subjects in the degree; Advanced in problem solving through their understanding of macroeconomic and microeconomic issues and able to apply economic theory and statistical techniques to economic policy and business decision making; Critically analytical through the evaluation of ideas, views and evidence contained in the economic and econometric research literatures; Skilled in working effectively with computer software for the analysis of data; Adept at retrieval, summary and interpretation of economic and econometric information through class exercises and assessment; Able to apply and synthesise economic and econometric ideas, theory, models and evidence to domestic and international economic issues; and Independent and effective in communication of ideas.</p>
<p>Generic Skills:</p>	<p>On successful completion of this course students should have improved the following generic skills:</p> <ul style="list-style-type: none"> # Critical evaluation of ideas, views and evidence in support of an argument or proposition; # Problem solving in economics and business decision making through the application of appropriate economic theories, principles, and the econometric analysis of data; # Written and oral communication of economic related ideas, theories and solutions to peers and the wider community; # Ability to synthesise ideas, theories and data in developing solutions to economic problems; # Statistical reasoning through completion of core quantitative subjects in the degree; and # Receptiveness to ideas and independence in thinking.
<p>Notes:</p>	<p>Students who successfully complete the Postgraduate Diploma in Economics with at least an H2B (70%) average may be eligible to progress to Year 2 of the Master of Economics.</p>
