

880AA Bachelor of Natural Resource Management with Honours

Year and Campus:	2011 - Parkville							
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees							
Level:	Undergraduate							
Duration & Credit Points:	100 credit points taken over 12 months full time. This course is available as full or part time.							
Coordinator:	Dr Marc Nicolas							
Contact:	MSLE Student Centre Email: msle-sc@unimelb.edu.au							
Course Overview:	<p>The Bachelor of Natural Resource Management with Honours is the 4th year of the degree course and offered at the Parkville campus of the University. Students will need to travel to the Burnley campus for some subjects. The honours year in Natural Resource Management is a very valuable year of study. It comprises advanced coursework and an individual research project designed to extend students' knowledge and research into sustainable management of our natural resources. After successfully completing the program, students will be prepared to either enter the workforce and pursue a career in environmental and resource management, or enrol for further research study through applying for a masters or doctor of philosophy degree.</p>							
Objectives:	<p>Students who have completed this course should have acquired:</p> <ul style="list-style-type: none"> # an understanding of natural resources, and how land, flora, fauna and water systems function; # an understanding of social systems and human behaviour as these relate to the use and conservation of natural resources and ecosystems; # an understanding of the concept of sustainable development and the interrelationship between the environment and social and economic constructs; # an understanding of technical and social strategies and tools for assessing and improving management of natural resources and ecosystems. 							
Course Structure & Available Subjects:	602-AA Bachelor of Resource Management with Honours							
Subject Options:	<p>BACHELOR OF NATURAL RESOURCE MANAGEMENT (HONOURS)</p> <p>The honours course is comprised of coursework and a research project. The coursework subjects consist of core subjects, and electives to be selected essentially from 400-level subjects offered by the Melbourne School of Land and Environment and other faculties of the University. They will enable students to gain sufficient familiarity with the fields relevant to their research project. Up to two subjects not appearing on the recommended list can be taken for credit, subject to course coordinator approval. Students may select two 300-level subjects for credit, subject to course coordinator approval. Applicants to the program will need to demonstrate the completion of appropriate prerequisite subjects in their undergraduate courses when selecting coursework subjects. Students will also be expected to participate in research discussion groups or 'journal clubs' and to attend the School's research seminar series.</p> <p>HONOURS RESEARCH PROJECT</p> <p>Students will select a project from a list formulated by supervisors through the Honours Research Project subject coordinator. Some of these projects may be offered in collaboration with industry, and collaborating institutions. Project proposals detailing the experimental plan and a literature review will be presented before the Honours Panel for discussion and approval prior to commencing experimental work. Students will be required to present seminars on both their project proposal and the outcomes of their research.</p> <p>AGRI40001 (year long) may be replaced by AGRI40002 in Semester 1 or Semester 2; or AGRI40003 for mid-year entry.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 60%;">Subject</th> <th style="width: 20%;">Study Period Commencement:</th> <th style="width: 20%;">Credit Points:</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table>		Subject	Study Period Commencement:	Credit Points:			
Subject	Study Period Commencement:	Credit Points:						

AGRI40001 Land and Environment Research Project	Semester 1, Semester 2	25
AGRI40002 Land and Environment Research Project	Semester 1, Semester 2	37.50
AGRI40003 Land and Environment Research Project	Semester 1, Semester 2	50

FOURTH YEAR

MAST40001 Research Philosophies and Statistics or NRMT40005 Social Research Methods.
Plus an additional elective subject.

Subject	Study Period Commencement:	Credit Points:
MAST40001 Research Philosophies and Statistics	Semester 1	12.50
NRMT40005 Social Research Methods	Semester 1	12.50

ELECTIVE SUBJECTS

One elective from Semester 1 or Semester 2.

Electives can be chosen from the following list or from approved subjects from other courses.

Subject	Study Period Commencement:	Credit Points:
NRMT40004 Community Natural Resource Management	Semester 2	12.50
EVSC90001 Global Environment and Sustainability	Not offered 2011	12.50

Entry Requirements:	<p>Students in the Bachelor of Natural Resource Management with Honours</p> <ol style="list-style-type: none"> 1 Must have achieved an average of 65% in the third-year (300-level) subjects in their pass degree 2 Must achieve a minimum of 100 credit points, with an Honours Grade Score of at least 65% 3 May take up to 2 electives not on the approved elective list for that degree (in the University Undergraduate Course and Subject Catalogue), provided these are approved by the course coordinator 4 Must complete Honours Research Project in an area approved by the course coordinator as being relevant to the particular degree undertaken 5 Must meet the defined work experience requirements for the pass degree before starting honours.
Core Participation Requirements:	Please visit our website for details about core participation requirements: http://www.land-environment.unimelb.edu.au/studentpolicies/coreparticipation.html
Further Study:	The Faculty offers excellent opportunities for students to pursue postgraduate studies in the fields of agricultural science, forestry, natural resource management, urban horticulture, food science, animal welfare, wood science, agribusiness, wine technology and viticulture, forest ecosystem science. Programs available include Graduate Certificates, Graduate Diplomas, Postgraduate Certificates, Postgraduate Diplomas, Masters (by coursework), Masters (by research) and Doctoral degrees
Graduate Attributes:	<p>Graduates will be expected to:</p> <ul style="list-style-type: none"> have a strong sense of intellectual integrity and the ethics of scholarship have in-depth knowledge of their specialist discipline(s) reach a high level of achievement in writing, generic research activities, problem-solving and communication be critical and creative thinkers, with an aptitude for continued self-directed learning be adept at learning in a range of ways, including through information and communication technologies be advocates for improving the sustainability of the environment have a broad global understanding, with a high regard for human rights, equity and ethics examine critically, synthesise and evaluate knowledge across a broad range of disciplines expand their analytical and cognitive skills through learning experiences in diverse subjects have the capacity to participate fully in collaborative learning and to confront unfamiliar problems have a set of flexible and transferable skills for different types of employment
Generic Skills:	Students who complete this course should have acquired:

	<ul style="list-style-type: none"># a profound respect for truth, intellectual and professional integrity, and the ethics of scholarship# a capacity for independent critical thought, rational inquiry and self-directed learning and research identification and description of the business environment in which rural and regional businesses operate# identification and description of the biophysical, social and economic resources of natural and modified ecosystems# an ability to derive, interpret and analyse ecological, biological, social, technical or economic information from primary sources# an ability to integrate information across a broad range of disciplines to solve problems in applied situations# highly developed written communication skills to allow informed dialogue with individuals and groups from industry, government and the community# an ability to plan work, use time effectively and manage small projects
