ABPL20037 Urban Design Studies

Credit Points:	12.50	12.50		
Level:	2 (Undergraduate)			
Dates & Locations:	2011, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus.			
Time Commitment:	Contact Hours: 1x2 hour lecture per week, 1x1 hour seminar per week Total Time Commitment: Not available			
Prerequisites:	The following subjects are pre-requisites:			
	Subject	Study Period Commencement:	Credit Points:	
	ENVS10004 Designing Environments	Semester 1, Semester 2	12.50	
	ENVS10007 Urban Environments	Semester 2	12.50	
Corequisites:	None specified			
Recommended Background Knowledge:	None specified			
Non Allowed Subjects:	None specified			
Core Participation Requirements:	For the purposes of considering requests for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website: http://www.services.unimelb.edu.au/disability/			
Coordinator:	Assoc Prof Justyna Karakiewicz			
Contact:	Email: justynak@unimelb.edu.au (mailto:justynak@unimelb.edu.au)			
Subject Overview:	Urban design is defined as the shaping of public space, distinguished from urban planning by its focus on urban form, from landscape architecture by its focus on built form and from architecture by its focus on public space. This subject will introduce and critically analyse a broad range of concepts, ideas and theories that frame practices of urban design in a contemporary global context.			
	Project types will include:			
	# new precincts and linkages # retrofitting and revitalization			
	# retrotiting and revitalization # new waterfronts			
	# transport-oriented design			
	# greenfield and brownfield developments			
	# informal settlements.			
	Studies of urban design process will include:			
	# staging and displacement			
	# community process			
	# design regulation			
	Critiques will include:			
	# aesthetic
