Core Participation Requirements:	Please visit our website for details about core participation requirements: http://www.land-environment.unimelb.edu.au/studentpolicies/coreparticipation.html
Further Study:	Candidates who have successfully completed the honours at an appropriate standard are eligible to proceed to a PhD.
Graduate Attributes:	<p>The Honours in Landscape Management will be academically excellent (attribute 1 of the revised statement of Graduate Attributes as approved by Academic Board). The program will build on new synergies arising from the merging of the Geography department and the Department of Resource Management in the Melbourne School of Land and Environment. The concentration of expertise in geography, environmental and resource and landscape management provided by this merger is unique. This expertise, coupled with the expertise within the MSLE and the other relevant schools in the University provides a unique opportunity for a high quality honours program. It will be a multi-disciplinary program that provides advanced training in landscape management. It will equip students with the conceptual and analytical skills necessary to understand and manage a range of landscape management and resource issues. Such characteristics meet knowledgeable across disciplines (attribute 2 of the revised statement of Graduate Attributes as approved by Academic Board) and Articles I and II - Attuned to cultural diversity and Active global citizens.</p> <p>The Honours in Environmental Geographies, Politics & Cultures will be academically excellent (attribute 1 of the revised statement of Graduate Attributes as approved by Academic Board).
