Coordinator:	Dr John Williams						
Contact:	Email: wij@unimelb.edu.au (mailto:wij@unimelb.edu.au)						
Subject Overview:	This subject examines strategic issues in the management of information technology for achieving business value and competitive advantage, making extensive use of case studies. More specifically, it examines the alignment between business strategy and information technology strategy, including issues of organisation design. Key challenges and decisions in the management of information technology are addressed including legacy systems, outsourcing, governance, risk, security and scalability, and information technology investment strategies.						
Objectives:	On successful completion of this subject, students should be able to: <ul style="list-style-type: none"> # Apply conceptual frameworks to explore the interrelationships between IT & Business strategy in real organisational contexts; # Critically discuss the impact of IT on organisational design; # Evaluate alternative IT strategies, sourcing and governance structures; # Make a business case for strategic IT investments; # Discuss strategic issues in the management and implementation of IT assets for competitive advantage. 						
Assessment:	3-hour end of semester exam (60%) Assignments totalling not more than 4000 words (40%)						
Prescribed Texts:	You will be advised of prescribed texts by your lecturer.						
Breadth Options:	This subject is not available as a breadth subject.						

Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
