Subject Overview:	Students will be encouraged to further expand on ideas and work practices developed in semester 1. The program will continue to offer a series of structured classes, practical exercises and projects to assist students to experiment with a range of tools, materials, methodology and pictorial conventions. Specialist workshops will focus on technical processes relevant to the uses of computer software for digital imaging and introduce other activities related to contemporary art practice. Students will be encouraged to develop critical and reflective thinking by regularly participating in group discussions.
Objectives:	<ul style="list-style-type: none"> # to assist students to experiment with a range of media and tools including the use of digital technologies # to develop studio/laboratory based approaches that will inform drawing practices
Assessment:	A substantial folio of selected works including perceptually based drawings, digital images, sketchbooks/journals; work made for set exercises/projects, and related materials (100 %)
