Subject Overview:	Introduction to the range of approaches to research as practised in applied linguistics. Topics to be covered focus on three main areas: research paradigms, or the philosophical assumptions concerning knowledge and inquiry and the ethical considerations in carrying out research. research strategies, or specific purposes and designs for research, such as experiments, quasi-experiments, ethnography, discourse and conversation analysis, action research and program evaluation. and data collection and analysis techniques, such as tests and surveys, statistical analysis, observation, interviews, introspection, think-aloud protocols, and qualitative data analysis. These topics will be explored with the aim of preparing students to design research projects of their own and critique research of current importance in the field of applied linguistics.
Objectives:	<ul style="list-style-type: none"> # be able to demonstrate an understanding of various approaches to applied linguistics research. # be able to develop a proposal for a research project. # be able to discuss in detail and offer possible solutions to problems in research methodology. # be able to critically review research studies.
Assessment:	Written work totalling 5000 words, consisting of 5 homeworks 40%,(due over the course of the semester), and a 3000 word research proposal 60%,(due after the end of the semester). Students concurrently enrolled in the minor thesis should discuss the research proposal with the lecturer.
Prescribed Texts:	Second Language Research (Mackey, A. & Gass, S.) Mahwah Edbaum (2005)
Breadth Options:	This subject is not available as a breadth subject.

Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<ul style="list-style-type: none"># develop their research skills.# develop their critical thinking and analytic skills.# be able to communicate ideas through writing.
