Coordinator:	Dr Natalie Jamieson, Mr Arnaud Gallois
Contact:	Melbourne School of Land & Environment Student Centre Ground Floor, Land & Food Resources (building 142) <i>Enquiries</i> Phone: 13 MELB (13 6352) Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au)
Subject Overview:	The subject covers alternative concepts and definitions of sustainable practice; critical appraisal of approaches taken by different disciplines to environmental issues and their identification; the scoping of potential solutions; the evaluation of costs and benefits; and the implementation of solutions. It also raises challenges to sustainability, including the processes that operate at different scales.
Objectives:	On completion of this subject, students will gain a fundamental appreciation of concepts of sustainability and recognise appropriate (or best) practice ideas in implementing it. The subject covers areas of relevance to all disciplines and is consciously interdisciplinary and reflexive in its orientation.
Assessment:	Assessment will involve an individual report (10%), group reports (30%) due after completion of the intensive teaching delivery in the first half of Semester One, and an individual essay assignment of relevance to the student's chosen field (topic selected in consultation with an academic staff member from the course). Word length for the essay is 3-000 - 4,000 words. The essay is usually due in Week 12 of Semester One.
Prescribed Texts:	Subject readings will be available for students.
Recommended Texts:	N/A
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
