Subject Overview:	Students will develop a research question in Health Economics/Economic Evaluation and adopt appropriate research methods to answer the research question. The research report will normally include the following components: formulation of a research question; critical appraisal of the literature; proposal of a research design or method of research/analysis, or development of an evaluation protocol; conducting analysis; reporting of findings; elaborating the meaning of findings; comparison of findings with relevant research and discussion of related issues, including limitations, policy implications and directions for future research; drawing conclusions based on research findings and discussion.
Objectives:	Upon completion of this subject, students should be able to: <ul style="list-style-type: none"> # Apply content knowledge and analytical methods in health economics and/or economic evaluation to a case study relating to public health, health care systems or health care policy, # Demonstrate an in-depth understanding of economic concepts and methods and how they would be applied to real-world public health, health care system and/or health care policy-related problems, # Discuss current methodological and/or practical issues relating to a topic of interest in public health, health care systems or health care policy.
Assessment:	A 15 minute work in progress oral presentation (10%) due during the assessment period of the first semester of study;A 30 minute second (final) verbal presentation (20%) due during the assessment period of the second semester of study;A written submission of between 5,000 and 10,000 words (70%) due in one month after the 30 minutes final verbal presentationNote: Students must pass the written research report assessment and must receive a combined score for the research report and the presentations of at least 50% in order to pass this subject.
Prescribed Texts:	None Special Computer Requirements: Distance students will be expected to communicate with tutors through an e-mail facility.
Recommended Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	Upon completion of this subject, students will have developed skills in: <ul style="list-style-type: none"> # Critical thinking and analysis, # Initiative, autonomy and organization, # Problem-solving, # Finding, evaluating and using relevant information, # Oral communication, # Written communication.
