Subject Overview:	The Research Project must be in an area of relevance to gender or women's health and the topic approved by the student's supervisor. Students, under supervision, will develop a research															

	question, and design an appropriate method to address the question. They will conduct a systematic literature review, a research protocol, analysis of previously collected data or data collection. Normally, students complete their coursework requirements before being enrolled for supervision of their Research Project.
Objectives:	After completion of the Research Project candidates will be able to: <ul style="list-style-type: none"> # critically review the existing research literature in an area of gender or women's health # develop a research question # design an appropriate research method to answer a research question # conduct and evaluate research in gender or women's health # present research findings in a written report # communicate research findings in an oral presentation
Assessment:	A 15 minute work in progress oral presentation due during the fifth week of semester (10%); a 30 minute final oral presentation due during the 11th week of the semester (20%); An 8,000 to 10,000 word research report, due during the examination period (70%). Students must pass the written research report (hurdle).
Prescribed Texts:	None
Recommended Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
