

VETS70001 MVSc (Clinical) Practicum # FT

Credit Points:	30						
Level:	7 (Graduate/Postgraduate)						
Dates & Locations:	This subject is not offered in 2011.						
Time Commitment:	Contact Hours: This subject is normally taken on a full-time basis for no more than two years. Students enrolled part-time in the MVSc (Clinical) will enrol in VETS70002 instead of this subject. Total Time Commitment: Not available						
Prerequisites:	The usual entry requirement is a Bachelor of Veterinary Science (usually honours level) or recognised equivalent qualification. Please note that all students must meet the University's English language requirement (http://www.futurestudents.unimelb.edu.au/int/apply/grad/english-req.html) .						
Corequisites:	Students enrolled in this practicum subject of the MVSc (Clinical) will also enrol in the following thesis subject: <table border="1" data-bbox="389 719 1485 898"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>VETS90027 Master Thesis in Vet Science (Clinical)</td> <td>RHD First Half Year, RHD Second Half Year</td> <td>Not Assigned</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	VETS90027 Master Thesis in Vet Science (Clinical)	RHD First Half Year, RHD Second Half Year	Not Assigned
Subject	Study Period Commencement:	Credit Points:					
VETS90027 Master Thesis in Vet Science (Clinical)	RHD First Half Year, RHD Second Half Year	Not Assigned					
Recommended Background Knowledge:	Candidates must have a recognised degree in veterinary science with appropriate clinical experience.						
Non Allowed Subjects:	Students enrolled in the MVSc (Clinical) are not permitted to enrol in the following subject: <table border="1" data-bbox="389 1088 1485 1267"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>VETS90013 Master Thesis in Veterinary Science</td> <td>RHD First Half Year, RHD Second Half Year</td> <td>Not Assigned</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	VETS90013 Master Thesis in Veterinary Science	RHD First Half Year, RHD Second Half Year	Not Assigned
Subject	Study Period Commencement:	Credit Points:					
VETS90013 Master Thesis in Veterinary Science	RHD First Half Year, RHD Second Half Year	Not Assigned					
Core Participation Requirements:	It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability will impact on their academic performance are encouraged to discuss this matter with the Subject Coordinator and the Disability Liaison Unit.						
Contact:	Faculty of Veterinary Science, University of Melbourne , Victoria, 3010, T: +61 (0)3 8344 7357, W: www.vh.unimelb.edu.au/residency/mvsc.html (http://www.vh.unimelb.edu.au/residency/mvsc.html) E: vet-info@unimelb.edu.au (mailto:vet-info@unimelb.edu.au)						
Subject Overview:	This is a subject for the practicum component of the Master of Veterinary Science (Clinical) stream. For most students, the practicum will consist primarily of case studies in the Veterinary Hospital. Students will be provided with advanced clinical training in diagnostic, therapeutic, and technical skills associated with veterinary clinical sciences. Students enrolled in this subject will be enrolled in the MVSc (Clinical) on a full-time basis.						
Objectives:	The MVSc (Clinical) is a research degree program that has as its objectives that graduates: <ul style="list-style-type: none"> # have achieved a breadth and depth of knowledge and understanding in a particular field or set of related fields in veterinary science; # can apply scientific methods to the definition and solution of problems by research; # have acquired advanced technical skills relevant to the field of research; 						

	<ul style="list-style-type: none"> # have acquired skills in the searching and manipulation of scientific literature and other relevant data bases; # are effective in scientific communication through both the spoken and written medium and to both professional colleagues and the wider community; # can approach scientific research in a critical, perceptive and constructive way; # have an understanding of the financing and management of scientific research; # develop interpersonal skills to work as part of a team; # observe the appropriate research codes of practice; # demonstrate a professional approach to all areas of responsibility.
Assessment:	Demonstrated clinical ability and application of knowledge (50%): Ongoing evaluation, including practical ability Written examination on the topic of the residency discipline in the last 6-18 months of the residency (33.3%): Written examination of 1.5-hour duration (for example, two 30-minute questions and three 10-minute questions) Assessment during residents' rounds (16.7%): Ongoing weekly evaluation during semesters Assessment of this subject will contribute 30% of final result of course.
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>Generic skills demonstrated in this subject are:</p> <ul style="list-style-type: none"> # approaching scientific research in a critical, perceptive and constructive way; # developing interpersonal skills to work as part of a team; # observing the appropriate research codes of practice; # acquiring skills in the searching and manipulation of scientific literature and other relevant data bases; # communicating effectively through both the spoken and written medium and to both professional colleagues and the wider community.
