

Master of Engineering (Electrical)

Year and Campus:	2012
Coordinator:	Associate Professor David Grayden grayden@unimelb.edu.au
Contact:	<p>Melbourne School of Engineering Ground Floor, Old Engineering (Building 173)</p> <p>Current Students: Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au) Phone: 13 MELB (13 6352) +61 3 9035 3511</p> <p>Prospective Students: Email: eng-info@unimelb.edu.au (mailto:eng-info@unimelb.edu.au) Phone: + 61 3 8344 6944</p> <p>Prospective Students: Visit http://www.eng.unimelb.edu.au/Postgrad/MEng/me_electrical.html (http://www.eng.unimelb.edu.au/Postgrad/MEng/me_electrical.html)</p>
Overview:	<p>Electrical engineers play a key role in the design, implementation and management of systems that exploit electrical phenomena to meet practical needs. These include systems for the distribution of power, telecommunications and information processing, on both very large and very small scales. Graduates are sought after for their strong analytical skills and they find employment in a variety of industries in roles ranging from research-and-development to project management and finance.</p>
Objectives:	<p>To produce graduates skilled in electrical engineering principles and have the ability to apply them to complex, open-ended engineering tasks and problems. Within this specification, students acquire skills in the areas of control, signal processing and communications, and may choose to undertake advanced study in one or more of these areas.</p>
Structure & Available Subjects:	<p>The Master of Engineering (Electrical) consists of 300 points of study - 212.5 points core plus 87.5 points elective subjects as listed below.</p> <p>Advanced standing will be awarded for equivalent subjects taken in prior study to applicants on the following basis:</p> <ul style="list-style-type: none"> # a maximum of 100 points for applicants with a 4 year Bachelor of Engineering or equivalent # a maximum of 100 points for applicants with a 3 year undergraduate degree. Students entering with a three year bachelor degree must complete at least 200 points of study within the Masters of Engineering. In cases where applicants have completed the equivalent of more than 100 points of core masters subjects, discipline specific electives must be taken to fulfill the 200 minimum masters study requirement. <p>Note: applicants from the University of Melbourne with:</p> <ul style="list-style-type: none"> # An appropriate "Engineering System" major will receive 100 points of advanced standing. Electrical Engineering students who have additionally taken Electronic System Implementation from the Bachelor of Science will receive 100 points of advanced standing and be exempt from Electronic System Implementation as a core subject but will need to take an additional 12.5 points of an approved elective. # Engineering breadth sequences (including those in the Bachelor of Commerce) will receive advanced standing to a maximum of 100 points.
Subject Options:	<p>Total 300 points - 212.5 points core (compulsory) plus 87.5 points elective subjects from the list below. Students must complete all 300 points of subjects, including all core subjects, or have advanced standing or exemption.</p> <p>The core and elective subjects are those listed below. The order of subjects below is one way of progressing through the course - students who meet subject requisites may tailor their individual study plan to take into account advanced standing and their preferred study load. Students plan their study on-line; however, Melbourne School of Engineering course advisors are available to assist students with individual study plans.</p> <p>Suggested first 100 points:</p>

Suggested study plan for first 100 points:

100 points Core from the list below

Core (100 points)

Subject	Study Period Commencement:	Credit Points:
ELEN20005 Foundations of Electrical Networks	January, Semester 2	12.50
MAST20029 Engineering Mathematics	Summer Term, Semester 1, Semester 2	12.50
ENGR90021 Engineering Communication	Semester 1, Semester 2	12.50
COMP20005 Engineering Computation	Semester 1, Semester 2	12.50
ELEN30009 Electrical Network Analysis and Design	Semester 1	12.50
ELEN30010 Digital System Design	Semester 1	12.50
ELEN30011 Electrical Device Modelling	Semester 2	12.50
ELEN30012 Signals and Systems	Semester 2	12.50

Suggested second 100 points:**Suggested study plan for the second 100 points:**

87.5 points Core

12.5 points Approved Elective

from the lists below

Core (87.5 points)

Subject	Study Period Commencement:	Credit Points:
ELEN90056 Electronic Circuit Design	Semester 1	12.50
ELEN90054 Probability and Random Models	Semester 1	12.50
ELEN90055 Control Systems	Semester 1	12.50
ELEN30013 Electronic System Implementation	Semester 2	12.50
ELEN90066 Embedded System Design	Semester 2	12.50
ELEN90057 Communication Systems	Semester 2	12.50
ELEN90058 Signal Processing	Semester 2	12.50

Suggested third 100 points:**Suggested study plan for the third 100 points:**

25 points Core

50 points Electrical Engineering Electives

25 points Approved Electives

from the lists below

Core (25 points)

Subject	Study Period Commencement:	Credit Points:
ELEN90067 Electrical Engineering Capstone Project	Year Long, Semester 1	25

Electrical Engineering Electives

Total 50 points

Subject	Study Period Commencement:	Credit Points:
ELEN90059 Lightwave Systems	Semester 1	12.50
ELEN90060 Power System Analysis	Semester 1	12.50
ELEN90051 Advanced Communication Systems	Semester 1	12.50
ELEN90052 Advanced Signal Processing	Semester 1	12.50
ELEN90061 Communication Networks	Semester 2	12.50
ELEN90062 High Speed Electronics	Semester 2	12.50
ELEN90064 Advanced Control Systems	Semester 2	12.50
ELEN90053 Electronic System Design	Semester 2	12.50

Approved Electives

Total 37.5 points

An approved elective is any postgraduate level subject or third-year undergraduate subject.

Students should note that they must meet subject pre-requisites and they may require permission to take subjects in other faculties.
