	<p>(a) Students who successfully complete the Postgraduate Diploma in Finance may be eligible to progress to the Master of Finance with 100 points credit.</p> <p>(b) Students who discontinue from the Master of Finance but have successfully completed the requirements of the Postgraduate Diploma in Finance will be eligible to receive the Postgraduate Diploma in Finance as an exit award.</p>
<p><b>Core Participation Requirements:</b></p>	<p>The Faculty of Business and Economics welcomes applications from students with disabilities. It is University and Faculty policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the Faculty's programs. The BCom and Masters degrees of the Faculty of Business and Economics equip graduates with the knowledge and technical skills necessary to understand and participate in the modern business world. The degrees include the following academic requirements for study: (1) The ability to explain and evaluate concepts, theories, institutional arrangements and operations of modern mixed economies;(2) The ability to critically evaluate the economy, commerce and business in the broader social and political context;(3) The ability to explain and apply concepts across a range of commerce and business disciplines in solving business and policy problems; and(4) The ability to contribute positively to the development of organisations and society in relation to business, government and the commercial professions. All students of the Faculty's courses must possess intellectual, ethical, and emotional capabilities required to participate in the full curriculum and to achieve the levels of competence required by the Faculty. Candidates for the BCom degree and for FBE Masters degrees must have abilities and skills in communication; in conceptual, integrative, and quantitative dimensions; and in behavioural and social dimensions. I. Communication: The student must be able to communicate effectively and efficiently in oral and/or written form. A student must have the ability to clearly and independently communicate knowledge and application of a discipline, principles or practices during assessment tasks, and in some discipline streams. II. Intellectual#Conceptual, Integrative and Quantitative Abilities: The student is expected to have the ability to develop problem#solving skills and demonstrate the ability to establish study plans and priorities. These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving requires all of these intellectual abilities. Students should also have the ability to comprehend complex disciplinary and cross disciplinary information related to the BCom and Masters degrees. III. Behavioural and Social Attributes: A student must possess behavioural and social attributes that enable them to participate in a complex learning environment and the emotional health required for full utilisation of his/her intellectual abilities. Students are required to take responsibility for their own participation and learning. They also contribute to the learning of other students in collaborative learning environments, demonstrating interpersonal skills and an understanding of the needs of other students. Assessment may include the outcomes of tasks completed in collaboration with other students. Integrity, concern for others, interpersonal skills, interest, and motivation are all personal qualities that are deemed necessary for students enrolled in FBE courses. Students who feel their disability will prevent them from participating in tasks involving the inherent academic requirements of the BCom and FBE Masters courses are encouraged to contact the Disability Liaison Unit. Adjustments can be provided to minimise the impact of a disability, but students should participate in the course in an independent manner.</p>
<p><b>Graduate Attributes:</b></p>	<p>On successful completion of this degree graduates will be: Knowledgeable in a range of financial fields including, corporate finance and investment management; Skilled in utilising financial modelling to solve complex financial decisions; Critical thinkers in the field of modern finance theory who are aware of the way in which theory contributes to sound financial decision making in practice ; Financial problem solvers who have the skills necessary to resolve valuation issues in the presence of limited information sets; Proficient at communicating financial ideas in a clear and concise manner; Effective team members through participation in collaborative exercises; and Adept at retrieval of relevant financial information from a variety of sources.</p>
<p><b>Generic Skills:</b></p>	<p><b>On successful completion of this degree students should have enhanced their skills in:</b></p> <ul style="list-style-type: none"> <li># Applying financial theory and methods to knowledgably discuss the importance of a wide range of financial issues;</li> <li># Financial problem solving through the application of the necessary analytical skills and techniques; and</li> <li># Communicating financial ideas in a clear and concise manner.</li> </ul>

**Notes:**

If FNCE90056 Investment Management and FNCE90018 Corporate Financial Policy or equivalent subjects have not previously been taken, these must be included in the course of study (and preferably taken in the first semester).

Students wishing to progress to the Master of Finance must apply for progression in writing (addressed to the Graduate School of Business and Economics) towards the end of their last semester of enrolment in the Postgraduate Diploma in Finance.

Students must pass all eight subjects to qualify for the Postgraduate Diploma in Finance.
