

719AA Bachelor of Forest Science (Honours)

Year and Campus:	2012									
CRICOS Code:	058250C									
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees									
Level:	Undergraduate									
Duration & Credit Points:	100 credit points taken over 12 months									
Coordinator:	Iona MacLeodmacleodi@unimelb.edu.au									
Contact:	<p>Melbourne School of Land & Environment Student Centre Ground Floor, Land & Food Resources (building 142)</p> <p><i>Enquiries</i> Phone: 13 MELB (13 6352) Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au)</p>									
Course Overview:	<p>This course is only available for students currently studying a Bachelor of Forest Science. For other students, please see the Bachelor of Science with Honours - https://handbook.unimelb.edu.au/view/2012/BH-SCI (../view/2011/BH-SCI)</p> <p>The honours year can be undertaken at the Parkville campus or at the Creswick campus. Prior to 2005 this course was called Bachelor of Forestry (Honours).</p> <p>The Bachelor of Forest Science (Honours) comprises advanced coursework and an individual research project designed to extend students' knowledge and skills in solving problems. After successfully completing the program, students will be prepared to either:</p> <ul style="list-style-type: none"> # enter the workforce pursuing a career in forest science and related environmental management industries; or # pursue further research study through masters or doctor of philosophy degrees. 									
Objectives:	<p>Students who complete this course should have acquired:</p> <ul style="list-style-type: none"> # an understanding of the biology and diversity of forest ecosystems; # an understanding of Australian forest management and conservation; # the capacity to apply scientific knowledge to the definition, analysis and solution of problems in forestry, forest conservation, forest industry and related environmental issues; # an ability to design and conduct scientific enquiries; # essential skills in the acquisition and interpretation of forest data; # a capacity for the exchange, acquisition and dissemination of scientific and industry information and for technology transfer; # a capacity and motivation for continuing independent learning. 									
Course Structure & Available Subjects:	719AA - Bachelor of Forest Science (Honours)									
Subject Options:	<p>BACHELOR OF FOREST SCIENCE (HONOURS)</p> <p>Students can be located at Parkville or Creswick campuses depending on project and elective choice.</p> <p>HONOURS RESEARCH PROJECT - PARKVILLE</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>AGRI40001 Land and Environment Research Project</td> <td>Semester 1, Semester 2</td> <td>25</td> </tr> <tr> <td>AGRI40002 Land and Environment Research Project</td> <td>Semester 1, Semester 2</td> <td>37.50</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	AGRI40001 Land and Environment Research Project	Semester 1, Semester 2	25	AGRI40002 Land and Environment Research Project	Semester 1, Semester 2	37.50
Subject	Study Period Commencement:	Credit Points:								
AGRI40001 Land and Environment Research Project	Semester 1, Semester 2	25								
AGRI40002 Land and Environment Research Project	Semester 1, Semester 2	37.50								

AGRI40003 Land and Environment Research Project	Semester 1, Semester 2	50
---	------------------------	----

HONOURS RESEARCH PROJECT - CRESWICK

Subject	Study Period Commencement:	Credit Points:
AGRI40006 Honours Research Project	Year Long	62.50
AGRI40009 Honours Research Project (MYE)	Semester 1, Semester 2	31.25

FOURTH YEAR

Core subjects

MAST40001 Research Philosophies and Statistics or NRMT40005 Social Research Methods plus one elective

Subject	Study Period Commencement:	Credit Points:
MAST40001 Research Philosophies and Statistics	Semester 1	12.50
NRMT40005 Social Research Methods	Semester 1	12.50

ELECTIVE SUBJECTS

Choose one from subjects listed below or an approved 300-level Forest & Ecosystem Science subjects, subject to course coordinator approval.

Subject	Study Period Commencement:	Credit Points:
FRST90015 Forest Ecosystems	February	12.50
FRST90019 Forest Assessment and Monitoring	February	12.50
FRST90073 Forest Planning and Business Management	October	12.50
NRMT40004 Community Natural Resource Management	Semester 2	12.50
FRST90020 Silviculture & Forest Dynamics	July	12.50
FRST90021 Sustainable Forest Management	July	12.50
FRST90022 Forests and Water	August	12.50

Entry Requirements:

To be eligible for consideration for entry into honours, applicants must have:

- # achieved an average of at least 65 in the third year (300-level) subjects of their Bachelor of Forest Science degree; or
- # completed an equivalent qualification to the Bachelor of Forest Science degree, this qualification being recognised by the School, at a level of academic performance equivalent to that required in the point above.

Core Participation Requirements:

Please visit our website for details about core participation requirements: <http://www.land-environment.unimelb.edu.au/studentpolicies/coreparticipation.html>

Further Study:

The Melbourne School of Land and Environment offers excellent opportunities for students to pursue postgraduate studies in the fields of agricultural science, forestry, natural resource management, urban horticulture, food science, animal welfare, wood science, agribusiness, wine technology and viticulture, forest ecosystem science. Programs available include Graduate Certificates, Graduate Diplomas, Postgraduate Certificates, Postgraduate Diplomas, Masters (by coursework), Masters (by research) and Doctoral degrees.

Graduate Attributes:

Graduates will be expected to: have a strong sense of intellectual integrity and the ethics of scholarship; have in-depth knowledge of their specialist discipline(s); reach a high level of achievement in writing, generic research activities, problem-solving and communication.

	critical and creative thinkers, with an aptitude for continued self-directed learning be adept at learning in a range of ways, including through information and communication technologies be advocates for improving the sustainability of the environment initiate and implement constructive change in their communities, including professions and workplaces mentor future generations of learners examine critically, synthesise and evaluate knowledge across a broad range of discipline
Generic Skills:	<p>This course encompasses particular generic skills. On completion of the course students should have:</p> <ul style="list-style-type: none"> # A profound respect for truth, intellectual and professional integrity, and the ethics of scholarship # Capacity for independent critical thought, rational inquiry and self-directed learning and research # Highly developed written communication skills to allow informed dialogue with individuals and groups from industry, government and the community # Highly developed oral communication skills to allow informed dialogue and liaison with individuals and groups from industry, government and the community
