Subject Overview:	<p>This subject is the culmination of each student's studies in Master of Architecture, Master of Landscape Architecture and Master of Urban Design. It will consist of a number of autonomous studio groups offering a range of opportunities for students to demonstrate an original approach to design synthesis in the relevant discipline, which is based on research and critical thinking. These studios may offer an interdisciplinary experience with students working alongside others in a parallel design discipline.</p> <p>Students will be expected to demonstrate mastery of design resolution, conceptual engagement and aesthetic expression.</p> <p>Under exceptional circumstances and with course coordinator approval the Design Thesis may be used as a framework for design research on a student's chosen specialization, which does not produce a design outcome.</p>
Objectives:	On completion of this subject, students will be able to: <ul style="list-style-type: none"> # demonstrate a capacity to make a contribution to the existing body of knowledge in architectural, landscape architectural or urban design theory and practice # demonstrate critical awareness of how their chosen specialisation contributes to this body of knowledge # demonstrate an understanding of design as a form of research enquiry
Assessment:	Written, graphic and verbal presentations to the equivalent of 10,000 words. Submission of project work will be progressive: 10% assignment (Week 3); 30% assignment (Week 7); 60% submission at the end of semester.
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
