| <b>Subject Overview:</b>                 | This subject requires students to study and research construction and conservation methods of timber buildings in southern China, and to produce drawings and writings highlighting details of such buildings. Students are also required to produce virtual displays highlighting the chosen pavilion, and possible alternatives, in its potential contexts.<br>As well as the above students will be required to spend at least four hours a week in the construction workshop producing a full-size timber pavilion, that will be erected, initially, adjacent to the workshop.   |

|                           |   |
|---------------------------|---|
| <b>Objectives:</b>        | On completion students should have a clear understanding of the construction techniques of southern Chinese timber buildings and knowledge of the requirements and methods of their conservation. |
| <b>Assessment:</b>        | Detailed documentation and modelling of Chinese pavilion buildings, equivalent to 5000 words (50%) Involvement in the construction of a timber pavilion (50%)                                     |
