Recommended Background Knowledge:	N/A																							
Non Allowed Subjects:	N/A																							
Core Participation Requirements:	<p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Overview, Objectives, Assessment and Generic Skills sections of this entry. It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability will impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and the Disability Liaison Unit: http://www.services.unimelb.edu.au/disability/</p>																							
Coordinator:	Ms Naomi Zens																							
Contact:	Dr Naomi Zens nzens@unimelb.edu.au (mailto:nzens@unimelb.edu.au)																							
Subject Overview:	<p>This subject introduces students to the speech pathology clinical setting including the management of patient presenting for diagnosis and/or treatment. The clinical settings may include hospitals, community clinics, schools, private practices, university clinics, nursing homes and others. A variety of clinical experiences will be offered including observations and hands on experience with infants, children young people and adults throughout the life span. In particular,</p>																							

	this subject will cover establishing rapport with clients, interview and history taking, listening and recording information accurately and developing observational skills.
Objectives:	On completion of this subject students should demonstrate an understanding of the speech pathology clinical setting and demonstrate they have acquired the following competency based clinical skills: <ul style="list-style-type: none"> # history taking and clinical examination skills # the ability to listen and record accurate written information # the ability to discuss relevant variables that are affecting the child, patient, family
Assessment:	Assessment by Objective Structured Clinical Examination (OSCE) in Week 12, at the end of Semester 2 – 50%. Students will be expected to demonstrate competency against the Competency Based Occupational Standards (CBOS, 2001) during local and external clinical placements. This will be measured using the Competency Assessment in Speech Pathology (COMPASS). Assessment Booklet and Resource Folder for each clinical placement to be submitted one week after the final day of the clinical placement – 50%. Hurdle requirements: Students must pass the OSCE and COMPASS assessments in order to pass this subject. 100% attendance and participation at all clinical placements.
Prescribed Texts:	Nil
Recommended Texts:	Nil
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	At the completion of this subject, students should be able to demonstrate: <ul style="list-style-type: none"> # the ability to behave in a professionally appropriate manner # critical thinking, analytical and problem solving skills # the ability to integrate theory and practice and to apply this in novel situations # the ability to communicate their knowledge in both oral and written form # an openness to new ideas # planning and time management skills
