

ECOL30006 Ecology in Changing Environments

Credit Points:	12.50						
Level:	3 (Undergraduate)						
Dates & Locations:	2012, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus.						
Time Commitment:	Contact Hours: 2 x one hour lectures per week; 24 hours of tutorial/practical classes during the semester Total Time Commitment: Estimated total time commitment of 120 hours						
Prerequisites:	One of <table border="1" data-bbox="389 573 1485 719"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>ECOL20003 Ecology</td> <td>Semester 2</td> <td>12.50</td> </tr> </tbody> </table> <ul style="list-style-type: none"> # 654-204 Ecology: Individuals and Populations (prior to 2009) # 606-204 Ecology: Communities and Ecosystems (prior to 2009) 	Subject	Study Period Commencement:	Credit Points:	ECOL20003 Ecology	Semester 2	12.50
Subject	Study Period Commencement:	Credit Points:					
ECOL20003 Ecology	Semester 2	12.50					
Corequisites:	None						
Recommended Background Knowledge:	None						
Non Allowed Subjects:	Students who have received credit for 654-313 Ecology in Changing Environments (prior to 2010) may not enrol in this subject for credit.						
Core Participation Requirements:	For the purposes of considering applications for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005) and Students Experiencing Academic Disadvantage Policy, this subject requires all students to actively and safely participate in practical class activities. Students who feel their disability may impact upon their participation are encouraged to discuss this with the Subject Coordinator and the Disability Liaison Unit. http://www.services.unimelb.edu.au/disability/						
Coordinator:	Assoc Prof Stephen Swearer, Dr Michael Kearney						
Contact:	Email: ECOL30006@zoology.unimelb.edu.au						
Subject Overview:	This subject provides students with an essential grounding for careers in ecology, environmental management and conservation. Its underlying theme is the relevance of ecological and evolutionary theory for understanding the distributions of species, their interactions, their life history characteristics and how these traits are impacted by changing environmental conditions. Topics include spatial ecology and metapopulations, climatic impacts on distribution and abundance, life history evolution and ecosystem stability and resilience.						
Objectives:	An important focus of this subject is learning to read, understand, and critically evaluate relevant contemporary literature in ecology. Students should become practised at accessing scientific literature, through both electronic and traditional sources, and should gain experience with computer-based ecological modelling and simulations.						
Assessment:	Written essay and short-answer assignment work totalling up to 3000 words due during the semester (40%); a 1-hour written examination held mid-semester (20%); a 2-hour written examination in the examination period (40%).						
Prescribed Texts:	None						
Recommended Texts:	None						
Breadth Options:	This subject potentially can be taken as a breadth subject component for the following courses:						

	<p># <u>Bachelor of Commerce</u> (https://handbook.unimelb.edu.au/view/2012/B-COM)</p> <p># <u>Bachelor of Environments</u> (https://handbook.unimelb.edu.au/view/2012/B-ENVS)</p> <p># <u>Bachelor of Music</u> (https://handbook.unimelb.edu.au/view/2012/B-MUS)</p> <p>You should visit learn more about breadth subjects (http://breadth.unimelb.edu.au/breadth/info/index.html) and read the breadth requirements for your degree, and should discuss your choice with your student adviser, before deciding on your subjects.</p>
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	The subject builds upon existing generic skills, including an ability to assimilate and critically evaluate new knowledge within a scientific paradigm, and to communicate that knowledge to a broad audience.
Notes:	This subject is available for science credit to students enrolled in the BSc (both pre-2008 and new degrees), BAsc or a combined BSc course.
Related Majors/Minors/Specialisations:	<p>Conservation and Australian Wildlife (pre-2008 Bachelor of Science)</p> <p>Ecology (pre-2008 Bachelor of Science)</p> <p>Ecology and Evolutionary Biology</p> <p>Genetics</p> <p>Geography Major</p> <p>Marine Biology</p> <p>Physical (Environmental Engineering) Systems major</p> <p>Science credit subjects* for pre-2008 BSc, BAsc and combined degree science courses</p> <p>Science-credited subjects - new generation B-SCI and B-ENG. Core selective subjects for B-BMED.</p> <p>Zoology</p>
