Subject Overview:	This subject will introduce students to various traditions in educational research. It will be structured around an investigation of several major research projects in education, analysing the research questions, the conceptual framework, the methodological decisions made, reliability, validity and ethical considerations, the analytical techniques, and the conclusions reached. The projects for investigation will be chosen to highlight contrasting ways of undertaking educational research.
Objectives:	On completion of the subject, students will be able to: <ul style="list-style-type: none"> # Understand the purposes to which different educational research methodologies can be put; # Realise the importance of a coherent research design with purpose, methodology and analytical framework in alignment; # Read reports of educational research in various traditions with understanding; # Read educational research with critical awareness of its strengths and limitations.
Assessment:	Learning log and/or contribution to online discussions, up to 1000 words. Due mid semester (10%) Reader response: Critical review of research article, up to 1500 words. Due mid semester (30%) Comparative evaluation of research approaches to an educational issue, up to 2500 words. Due Examination period (60%)

Prescribed Texts:	A book of readings will be provided
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of the subject, students will be able to;</p> <ul style="list-style-type: none"> # Understand a range of research practices more fully; # Understand the dependence of research results on the methodology and analytical framework employed. # Read academic work with an increased critical capacity.
