Subject Overview:	The aim of this subject is to explore studio practices related to the first semester studio program. The program will offer a series of structured classes, practical exercises and projects to assist students to experiment with a range of tools, materials, methodology and pictorial conventions. Specialist workshops will focus on technical processes relevant to the uses of computer software for digital imaging and introduce other activities related to contemporary art practice. Students will be encouraged to develop critical and reflective thinking by participating in group discussions.
Objectives:	# to assist students to experiment with a range of media and tools including the use of digital technologies # to develop studio/laboratory based approaches that will inform drawing practices
Assessment:	A substantial folio of selected works including perceptually based drawings, digital images, sketchbooks/journals; work made for set exercises/projects, and related materials (100%).
Prescribed Texts:	Required texts Students may be asked to locate relevant texts and reference material independently and or in consultation with supervising lecturers who may also refer texts appropriate to individual need. Additional reading or references Students are encouraged to make regular visits to art galleries, art institutions, and artist run spaces, located in the immediate cultural environment. Current publicity material including information about artist

	talks, presentations, public lecture programs, and exhibition dates are posted regularly on the department notice board.
