Subject Overview:	<p>Students prepare a study proposal appropriate to their studio practice. The program should provide a conceptual framework for development and incorporate a study plan for acquisition of the skills necessary to realise the projected work. Students are encouraged to employ speculation and technical experimentation as learning strategies.</p> <p>Guidance and assistance is provided through individual and group tutorials. Each student is assigned a supervisor who is responsible for oversighting his or her progress.</p> <p>Individual Tutorials: provide the opportunity for one to one critical discussion with staff regarding the formal, conceptual, personal or expressive bases of the student's work and its realisation.</p> <p>Group Tutorials: encourage critical discussion and debate in a peer group situation where the individual's work provides the starting point for consideration of a range of issues surrounding contemporary art practice.</p>
Objectives:	<ul style="list-style-type: none"> # Development and refinement of the ability to manipulate and manage the materials and processes involved in the chosen visual art medium # Development and refinement of the ability to express ideas and personal concerns through the chosen visual art medium; # Development and refinement of the ability to gather and synthesise information and other resources in the service of a personal art practice; # Development and refinement of the ability to discuss contemporary art practice and its personal, professional and social context.

Assessment:	Submission of a body of work which reflects the range of student activity throughout the semester and which demonstrates the student's conceptual ability; critical capacity; development of working methodologies; technical, manipulative and perceptual skills with particular regard to individual experimentation (100 %). In order to be eligible for assessment a student must have attended a minimum of 80% of the scheduled Group Tutorials and presented work at least once in one of these tutorials.
