Coordinator:	Ms Catherine Pigott
Contact:	Nursing Melbourne School of Health Sciences The University of Melbourne Level 1, 200 Berkeley St Carlton Victoria 3010 AUSTRALIA T: +61 3 13 MELB F: +61 3 8344 4188 E: nursing-enquiries@unimelb.edu.au (mailto:nursing-enquiries@unimelb.edu.au) W: www.nursing.unimelb.edu.au (http://www.nursing.unimelb.edu.au/)
Subject Overview:	This subject applies nursing knowledge to develop skills consistent with implementing nursing care as a proficient level Cancer & Palliative Care specialty practitioner. The epidemiological, philosophical and psycho-social issues associated with disease processes and end of life care are explored from both the patient and nurses' perspective. Learners are particularly challenged to reflect on personal and professional values and the social, cultural and political context of their practice. An appreciation of the multi-cultural nature of society is developed and the meaning of death is explored from an historical and contemporary perspectives, including consideration of common death rituals and funeral customs from a variety of cultures. Spiritual care is placed within the concept of holistic care as well as considering strategies for optimal bereavement care within a multicultural society and in observance of legal and ethical factors. Learners are encouraged to develop knowledge and skills to work within an interdisciplinary health care team and to assist the person and their family to optimally respond to the impact of illness.
Objectives:	Students will be expected to be able to demonstrate their proficiency in specialty nursing practice through: <ul style="list-style-type: none"> # acquisition of skills for working within an interdisciplinary health care team # exploration and reflection on personal and professional values and the social, cultural and political context of collaborative practice;
