Corequisites:	None						
Recommended Background Knowledge:	None						
Non Allowed Subjects:	None						
Core Participation Requirements:	For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website: http://www.services.unimelb.edu.au/disability/						
Coordinator:	Assoc Prof Kevin Walsh						
Contact:	Melbourne School of Land & Environment Student Centre Ground Floor, Land & Food Resources (building 142) <i>Enquiries</i> Phone: 13 MELB (13 6352) Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au)						
Subject Overview:	<p>This subject will allow students to further develop their understanding of climate change through a detailed consideration of future mitigation options and adaptation strategies in four areas of critical concern.</p> <p>These areas include (1) energy generation and use, (2) cities and urban development, (3) water and food security, and (4) terrestrial and marine biodiversity. The subject will explore the social, environmental, economic, political and legal implications of implementing mitigation and adaptation strategies in each of these areas.</p> <p>The emphasis on mitigation and adaptation and their potential interactions within particular sectors will consolidate knowledge and develop the expertise necessary for the multi-disciplinary projects in the third year subject.</p>						
Objectives:	The subject will consolidate understanding of the disciplines relevant to understanding climate change. As with the prerequisite subject, students will continue to remain involved with and focussed on the issues of immediate debate within the community, as well as developing an understanding of the long-term implications of climate change.						

	Outcomes of the second year subject will include an understanding of the analytical framework necessary for developing future social, environmental, economic and political responses to climate change, as well as an appreciation of the difficulties of implementing changes in policy.
Assessment:	A 2-hour written examination- 30%; a research essay of 2,000 words - 30%; and weekly practical exercises due in tutorials - 40%.Hurdle requirement: 75% minimum attendance at tutorials.
Prescribed Texts:	None
Breadth Options:	<p>This subject potentially can be taken as a breadth subject component for the following courses:</p> <ul style="list-style-type: none"> # <u>Bachelor of Arts</u> (https://handbook.unimelb.edu.au/view/2012/B-ARTS) # <u>Bachelor of Biomedicine</u> (https://handbook.unimelb.edu.au/view/2012/B-BMED) # <u>Bachelor of Commerce</u> (https://handbook.unimelb.edu.au/view/2012/B-COM) # <u>Bachelor of Environments</u> (https://handbook.unimelb.edu.au/view/2012/B-ENVS) # <u>Bachelor of Music</u> (https://handbook.unimelb.edu.au/view/2012/B-MUS) # <u>Bachelor of Science</u> (https://handbook.unimelb.edu.au/view/2012/B-SCI) # <u>Bachelor of Engineering</u> (https://handbook.unimelb.edu.au/view/2012/B-ENG) <p>You should visit <u>learn more about breadth subjects</u> (http://breadth.unimelb.edu.au/breadth/info/index.html) and read the breadth requirements for your degree, and should discuss your choice with your student adviser, before deciding on your subjects.</p>
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On the completion of this subject, students should have developed the following generic skills:</p> <ul style="list-style-type: none"> # Quantitative skills, including an appreciation of statistical methods; # The ability to write a logically argued and properly researched essay; # The ability to critically assess information from a range of sources, and assess its quality and relevance to the questions under consideration. # The ability to work as part of a multi-disciplinary team on a major project. # Oral communication skills through presentation and investigation of relevant material.
