

Master of Engineering (Biomolecular)

Year and Campus:	2013								
Coordinator:	Professor George Franks gvfranks@unimelb.edu.au								
Contact:	<p>Melbourne School of Engineering Ground Floor, Old Engineering (Building 173)</p> <p>Current students: Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au) Phone: 13MELB (13 6352) +61 39035 3511</p> <p>Prospective students: Email: eng-info@unimelb.edu.au (mailto:eng-info@unimelb.edu.au) Phone +61 3 8344 6944</p>								
Overview:	<p>Biomolecular engineers explore the development of large scale processes using microbial, plant or animal cells. Career opportunities for biomolecular engineers exist in specialized biomolecular industries such as the pharmaceutical and food industries but also encompass more traditional chemical engineering fields including petrochemical, minerals and energy, environmental consulting and fertiliser, paint and detergent manufacture.</p>								
Objectives:	<p>To produce graduates who are both skilled in biomolecular engineering principles and have the ability to apply these skills to complex, open-ended engineering tasks and problems.</p>								
Structure & Available Subjects:	<p>The Master of Engineering (Biomolecular) consists of 300 points of study - 275 points core plus 25 points elective subjects as listed below.</p> <p>Advanced standing will be awarded for equivalent subjects taken in prior study to applicants on the following basis:</p> <ul style="list-style-type: none"> # A maximum of 100 points for applicants with a 4 year Bachelor of Engineering or equivalent # A maximum of 100 points for applicants with a 3 year undergraduate degree. Students entering with a three year bachelor degree must complete at least 200 points of study within the Masters of Engineering. In cases where applicants have completed the equivalent of more than 100 points of core masters subjects, discipline specific electives must be taken to fulfil the 200 minimum masters study requirement <p>Note: applicants from the University of Melbourne with:</p> <ul style="list-style-type: none"> # An appropriate "Engineering System" major will receive 100 points of advanced standing. Chemical Engineers from the Bachelor of Science will receive 100 points of advanced standing and be exempt from 25 points of completed core subjects but will need to take an additional 25 points in of Chemical Engineering electives # Engineering breadth sequences (including those in the Bachelor of Commerce) will receive advanced standing to a maximum of 100 points 								
Subject Options:	<p>Total 300 points - 275 points core (compulsory) plus 25 points elective subjects from the list below. Students must complete all 300 points of subjects, including all core subjects, or have advanced standing or exemption.</p> <p>The core and elective subjects are those listed below. The order of subjects below is one way of progressing through the course - students who meet subject requisites may tailor their individual study plan to take into account advanced standing and their preferred study load. Students plan their study online, however Melbourne School of Engineering course advisors are available to assist students with individual study plans.</p> <p>Suggested first 100 points:</p> <p>Suggested study plan for first 100 points:</p> <ul style="list-style-type: none"> # 100 points core subjects from the list below: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 60%;">Subject</th> <th style="width: 20%;">Study Period Commencement:</th> <th style="width: 20%;">Credit Points:</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table>			Subject	Study Period Commencement:	Credit Points:			
Subject	Study Period Commencement:	Credit Points:							

MAST20029 Engineering Mathematics	Not offered 2013	12.50
ENGR90021 Engineering Communication	Not offered 2013	12.50
CHEN20007 Chemical Process Analysis 1	Semester 1	12.50
CHEM20018 Chemistry: Reactions and Synthesis	Not offered 2013	12.50
CHEN20008 Chemical Process Analysis 2	Semester 2	12.50
CHEN20009 Transport Processes	Not offered 2013	12.50
CHEN90032 Process Dynamics And Control	Not offered 2013	12.50
ENGR30002 Fluid Mechanics	Not offered 2013	12.50

Suggested second 100 points:

Suggested study plan for the second 100 points:

100 points core subjects including 75 points from the list below:

Subject	Study Period Commencement:	Credit Points:
CHEN30001 Reactor Engineering	Not offered 2013	12.50
CHEN30005 Heat and Mass Transport Processes	Not offered 2013	12.50
CHEN90020 Chemical Engineering Management	Not offered 2013	12.50
CHEN90016 Metabolic Engineering	Not offered 2013	12.50
CHEN30015 Process Engineering Case Studies	Not offered 2013	12.50
CHEN90031 Bioprocess Engineering	Not offered 2013	12.50

AND a 25 point project subject from the list below:

(Note: enrolment in CHEN90028 Industry Project is subject to approval from the Course Co-ordinator)

Subject	Study Period Commencement:	Credit Points:
BIEN90001 Biomolecular Engineering Research Project	Not offered 2013	25
CHEN90028 Industry Project	Summer Term, Semester 2	25

Suggested third 100 points:

Suggested study plan for third 100 points:

75 points core subjects from the list below:

Subject	Study Period Commencement:	Credit Points:
CHEN90012 Process Equipment Design	Not offered 2013	12.50
CHEN90018 Particle Mechanics and Processing	Not offered 2013	12.50
CHEN90009 Fermentation Processes	Not offered 2013	12.50
BIEN90002 Biomolecular Engineering Design Project	Not offered 2013	25
CHEN90013 Process Engineering	Not offered 2013	12.50

AND 25 points elective subjects chosen from the list below:

	Subject	Study Period Commencement:	Credit Points:
	CHEN90028 Industry Project	Summer Term, Semester 2	25
	BIEN90003 Biomolecular Engineering Minor Thesis	Not offered 2013	25
	CHEN90019 Advanced Heat & Mass Transport Processes	Not offered 2013	12.50
	BMEN90011 Tissue Engineering & Stem Cells	Not offered 2013	12.50
	CHEN90010 Minerals, Materials and Recycling	Not offered 2013	12.50
	ENGR90024 Computational Fluid Dynamics	Not offered 2013	12.50
	BMEN90012 Soft Matter Engineering	Not offered 2013	12.50
	CHEN90007 Advanced Thermo & Reactor Engineering	Not offered 2013	12.50
	ENGR90026 Engineering Entrepreneurship	Not offered 2013	12.50
	CHEN90027 Carbon Capture and Storage	Not offered 2013	12.50
	CHEN90011 Bioenvironmental Engineering	Not offered 2013	12.50
	<p>Note:</p> <ul style="list-style-type: none"> # Students may opt to complete a second 25 point project subject for the 25 points in elective subjects # Students completing the first 100 points prior to 2013 will have completed ENGR30001 Fluid Mechanics and Thermodynamics instead of ENGR30002 Fluid Mechanics. Credit cannot be obtained for both subjects. # Credit cannot be obtained for both BIEN30001 Bionanoengineering and BMEN90012 Soft Matter Engineering # From 2013, CHEN90031 Bioprocess Engineering has replaced CHEN90008 Biology for Engineers. Credit cannot be obtained for both CHEN90008 Biology for Engineers and CHEN90031/BTCH90006 Bioprocess Engineering
