

244CW Master of Public Health

Year and Campus:	2013 - Parkville
CRICOS Code:	020358D
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Level:	Graduate/Postgraduate
Duration & Credit Points:	200 credit points taken over 24 months full time. This course is available as full or part time.
Coordinator:	Dr Melissa Russell
Contact:	<p>Academic Programs Office Melbourne School of Population Health Tel: +61 3 8344 9339 Fax: +61 3 8344 0824 Email: sph-gradinfo@unimelb.edu.au (mailto:sph-gradinfo@unimelb.edu.au)</p> <p>OR</p> <p>Centre for Molecular, Environmental, Genetic and Analytic (MEGA) Epidemiology Melbourne School of Population Health Tel: +61 3 8344 0736 Email: melissar@unimelb.edu.au (mailto:melissar@unimelb.edu.au)</p>
Course Overview:	<p>The Master of Public Health offers students the opportunity to gain the skills and knowledge required for a career in public health practice. Within the course students are exposed to the core foundations of public health theory and practice and also have the opportunity to specialise in the advanced public health training streams offered through the University of Melbourne. The Master of Public Health programs at the University of Melbourne are delivered by academic staff with extensive experience and depth of knowledge, who are leaders in their chosen fields of public health.</p> <p>The Master of Public Health has three components:</p> <ol style="list-style-type: none"> 1 The core component includes up to six subjects that provide students with a rigorous, multidisciplinary foundation in public health theory and practice, that is essential to all aspects of public health practice; 2 The specialist component offers students the opportunity to focus on one or more key fields in public health and gain the skills and knowledge required for practice in the area. Specialisations are offered in the fields of Epidemiology and Biostatistics, Gender and Women's Health, Global Health, Health Program Evaluation, Health Economics and Economic Evaluation, Indigenous Health, Primary Care, Sexual Health and Social Health; and 3 The capstone experience offers students the opportunity to consolidate their specialist training and apply the knowledge gained in the course to real world scenarios resulting in effective outcomes. Students may apply to undertake a Research Project with an expert in their field; a Professional Practice placement with a recognised agency, institution or community organisation concerned with health; or further elective subjects.
Objectives:	<p>The Master of Public Health is designed to produce outstanding graduates with a comprehensive understanding of the multidisciplinary foundations of public health; advanced theoretical knowledge and practical skills aligned with their future aspirations within the field; and attitudes towards knowledge and its application, which are in keeping with the values articulated in the University's graduate attributes.</p> <p>Upon completion of the Master of Public Health, graduates will be able to:</p> <ul style="list-style-type: none"> # Describe and appraise public health systems, structures and policies in Australia and other countries, and be able to distinguish a population-based approach from individual based approaches; # Plan strategies to prevent disease and injury and to protect and improve health (i.e. health promotion, immunisation, screening, legislation, policy, and community development); # Assess the health status of communities and evaluate intervention processes and outcomes using appropriate analytic methods; # Describe and appraise global public health systems, structures and policies in Australia and overseas;

	<ul style="list-style-type: none"> # Articulate the ways in which age, gender, ethnicity and Indigenous status, society, culture, geography, the environment and socio-economic status influence health and public health practice; # Critically appraise social science and epidemiological evidence; and # Apply effective leadership and management principles to public health practice. 																					
Course Structure & Available Subjects:	<p>200 Point Program: SIX core subjects and TEN elective subjects or EIGHT elective subjects and either a Research Project or Professional Practice unit of 25 points</p> <p>175 Point Program: SIX core subjects and EIGHT elective subjects or SIX elective subjects and either a Research Project or Professional Practice unit of 25 points</p> <p>150 Point Program: FIVE core subjects and SEVEN elective subjects or FIVE elective subjects and either a Research Project or Professional Practice unit of 25 points</p>																					
Majors/Minors/ Specialisations	<p>MASTER OF PUBLIC HEALTH SPECIALISATIONS</p> <p>Following are recommended subject combinations for specialisations within the MPH. These are guides and are not prescriptive, however students should check to see if specific research projects have set prerequisite subjects. Students may obtain assistance in putting together their own interdisciplinary course plans from the course coordinator during organised enrolment sessions at the beginning of each year, or by appointment throughout the year.</p> <table border="1" data-bbox="389 757 1485 1330"> <thead> <tr> <th>Major/Minor/Specialisation</th> </tr> </thead> <tbody> <tr><td>Epidemiology and Biostatistics</td></tr> <tr><td>Gender & Women's Health</td></tr> <tr><td>Global Health</td></tr> <tr><td>Health Economics & Economic Evaluation</td></tr> <tr><td>Health Program Evaluation</td></tr> <tr><td>Health Social Sciences</td></tr> <tr><td>Indigenous Health</td></tr> <tr><td>Primary Care</td></tr> <tr><td>Sexual Health</td></tr> </tbody> </table>	Major/Minor/Specialisation	Epidemiology and Biostatistics	Gender & Women's Health	Global Health	Health Economics & Economic Evaluation	Health Program Evaluation	Health Social Sciences	Indigenous Health	Primary Care	Sexual Health

The MPH is flexible and does not have fixed streams. Students may tailor subject choices to suit their interests, provided they meet course requirements. All elective subjects offered in the MPH are listed below:

Subject	Study Period Commencement:	Credit Points:
POPH90137 Primary Health Care, Jamkhed, India	November	12.50
POPH90169 Adolescent Sexuality and Sexual Health	Not offered 2013	12.50
POPH90070 Clinical Sexual & Reproductive Health	Not offered 2013	12.50
POPH90189 Global Health Program Planning & Design	Not offered 2013	12.50
POPH90020 Health Promotion	February	12.50
POPH90234 Indigenous Health Management&Leadership	Not offered 2013	12.50
POPH90087 International Adolescent Health	Not offered 2013	12.50
POPH90200 Principles of Social Research Design	Not offered 2013	12.50
POPH90206 Health Policy	Not offered 2013	12.50
POPH90071 Indigenous Health and History	March	12.50
POPH90131 Primary Hlth Care in Develop. Countries	March, August	12.50
POPH90093 Economic Evaluation 1	Not offered 2013	12.50
POPH90199 Gender and Health	Semester 1	12.50
POPH90094 Health Economics 1	Semester 1	12.50
POPH90207 Health Ethics	Not offered 2013	12.50
POPH90058 Health Program Evaluation 1	Not offered 2013	12.50
POPH90190 HIV and AIDS:An Evolving Global Response	Not offered 2013	12.50
POPH90112 Infectious Disease Epidemiology	Not offered 2013	12.50
POPH90201 Social Sciences Research Methods	Not offered 2013	12.50
POPH90146 Study Design in Epidemiology	Not offered 2013	12.50
POPH90230 Environmental Challenges and Global Health	Not offered 2013	12.50
ISYS90069 eHealth & Biomedical Informatics Systems	July	12.50
POPH90198 Sex Work, Drugs, Sex Between Men & HIV	Not offered 2013	12.50
POPH90203 Social Analysis in Health 1	Not offered 2013	12.50
POPH90238 Systems for Global Health	Not offered 2013	12.50
PAED90005 Child Public Health	July	12.50
POPH90211 Current Debates in Population Health	Not offered 2013	12.50
POPH90095 Economic Evaluation 2	Not offered 2013	12.50
POPH90229 Health Economics 2	Not offered 2013	12.50
POPH90205 Health Inequalities	Not offered 2013	12.50

POPH90090 Health Program Evaluation 2	Not offered 2013	12.50
POPH90232 Indigenous Health: From Data to Practice	Not offered 2013	12.50
POPH90208 Key Concepts in Medical Anthropology	Not offered 2013	12.50
POPH90068 Sexually Transmissible Infections	Not offered 2013	12.50
POPH90147 Epidemiology in Practice	Not offered 2013	12.50
POPH90209 Health Systems	August	12.50
POPH90144 Linear & Logistic Regression	Not offered 2013	12.50
POPH90069 Sexual and Reproductive Health	August	12.50
POPH90088 Disability in Developing Countries	Not offered 2013	12.50
POPH90191 Practice of Public Health Leadership	Not offered 2013	12.50
POPH90204 Social Analysis in Health 2	Not offered 2013	12.50
POPH90145 Survival Analysis & Regression for Rates	September	12.50
POPH90066 Women and Global Health	Not offered 2013	12.50
POPH90086 International Child Health	October	12.50
POPH90210 Behaviour Society and Health	Not offered 2013	12.50
POPH90212 Community:Theory and Practice	Not offered 2013	12.50
POPH90213 Ethical Dimensions in Health Care	Not offered 2013	12.50
POPH90182 Gender, Violence and Health	Not offered 2013	12.50
POPH90111 Genetic Epidemiology	Not offered 2013	12.50

International Students from Non-English Speaking Backgrounds are encouraged to enrol in this subject offered jointly by the Faculty of Medicine, Dentistry and Health Sciences and the Centre for Communication Skills and English Language Studies:

Subject	Study Period Commencement:	Credit Points:
LING90002 Presenting Academic Discourse	Semester 2	12.50

RESEARCH PROJECT OR PROFESSIONAL PRACTICE UNIT

Students may apply to undertake either a 25 point supervised Research Project in their chosen field of specialisation or a 25 point supervised Professional Practice unit. Students have the option of applying to enrol in a year-long research project or a semester-long research project. Students enrolling in the year long project MUST complete the project in two semesters consecutively.

Students who wish to enter the program mid-year should be aware that options with regard to undertaking a research project may be limited.

Students should be aware that they must complete a 25 point research project in order for the MPH to provide an entry pathway to the MPhil or PhD program.

Note: Research project prerequisites will be revised to reflect the new core curriculum, however this will not be done until 2012; this will allow continuing students to be able to enrol in a research project as per the current arrangements. Note that very few students start the research project in their first year.

Subject	Study Period Commencement:	Credit Points:
POPH90110 Research Project: Epidemiology/Biostat	Not offered 2013	12.50

POPH90219 Research Project: Epidemiology/Biostat	Semester 1	25
POPH90126 Research Project: Gender/Women's Health	Not offered 2013	12.50
POPH90220 Research Project: Gender/Women's Health	Not offered 2013	25
POPH90089 Research Project: Global Health	Not offered 2013	12.50
POPH90221 Research Project: Global Health	Semester 1, Semester 2	25
POPH90092 Research Project: Health Economics	Not offered 2013	12.50
POPH90222 Research Project: Health Economics	Not offered 2013	25
POPH90091 Research Project: Health Program Evaluation	Not offered 2013	12.50
POPH90223 Research Project: Health Program Evaluation	Semester 2	25
POPH90240 Research Project:Health Social Sciences	Not offered 2013	12.50
POPH90241 Research Project:Health Social Sciences	Not offered 2013	25
POPH90235 Research Project: Indigenous Health	Not offered 2013	12.50
POPH90236 Research Project: Indigenous Health	Not offered 2013	25
GENP90001 Research Project in Primary Health Care	Not offered 2013	12.50
GENP90020 Research Project: Primary Health Care	Not offered 2013	25
POPH90186 Research Project: Sexual Health	Not offered 2013	12.50
POPH90224 Research Project: Sexual Health	Not offered 2013	25
POPH90105 Research Project: Social Health	Not offered 2013	12.50
POPH90225 Research Project: Social Health	Not offered 2013	25
POPH90228 Professional Practice-L	Not offered 2013	12.50
POPH90239 Professional Practice Placement - S	Not offered 2013	25

EXIT POINT

Upon successful completion of FIVE core subjects (or FOUR core subjects and an additional elective if an exemption is granted for Foundations of Public Health) and TWO elective subjects, students may exit the program with a Postgraduate Diploma of Public Health.

Entry Requirements:

- The Selection Committee will evaluate the applicant's ability to pursue the course successfully using the following criteria:
 - # an undergraduate degree in any discipline, or equivalent; **OR**
 - # at least 200 points of tertiary study in any discipline and at least five years of documented relevant health-related work experience.
- The Selection Committee may conduct interviews and tests and call for referee reports and employer references to elucidate any of the matters referred to above. Note: Successful applicants with (i) an appropriate health professional degree, or (ii) an undergraduate degree and a minimum of two years of documented health related work experience may be granted 25 points of advanced standing. Successful applicants with an undergraduate degree and a minimum of two years of documented public health related work experience may be granted 50 points of advanced standing.

Core Participation Requirements:

For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this course are articulated in the Course Description, Course

	Objectives and Generic Skills of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website.
Graduate Attributes:	The Melbourne Experience enables our graduates to become: Academically excellent: have a strong sense of intellectual integrity and the ethics of scholarship have in-depth knowledge of their specialist discipline(s) reach a high level of achievement in writing, generic research activities, problem-solving and communication be critical and creative thinkers, with an aptitude for continued self-directed learning be adept at learning in a range of ways, including through information and communication technologies Knowledgeable across disciplines: examine critically, synthesise and evaluate knowledge across a broad range of disciplines expand their analytical and cognitive skills through learning experiences in diverse subjects have the capacity to participate fully in collaborative learning and to confront unfamiliar problems have a set of flexible and transferable skills for different types of employment Leaders in communities: initiate and implement constructive change in their communities, including professions and workplaces have excellent interpersonal and decision-making skills, including an awareness of personal strengths and limitations mentor future generations of learners engage in meaningful public discourse, with a profound awareness of community needs Attuned to cultural diversity: value different cultures be well-informed citizens able to contribute to their communities wherever they choose to live and work have an understanding of the social and cultural diversity in our community respect indigenous knowledge, cultures and values Active global citizens: accept social and civic responsibilities be advocates for improving the sustainability of the environment have a broad global understanding, with a high regard for human rights, equity and ethics
Generic Skills:	The Master of Public Health will allow students to develop skills in: <ul style="list-style-type: none"> # Critical thinking and analysis # Working with others and in teams # Initiative, autonomy and organization # Problem-solving # Oral communication # Finding, evaluating and using relevant information # Written communication # Decision-making # Leadership # Persuasion and argumentation # Using computers and statistical software
