

680EE Bachelor of Engineering (EngineeringManagement) Electrical

Year and Campus:	2013						
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees						
Level:	Undergraduate						
Duration & Credit Points:	400 credit points taken over 48 months						
Coordinator:	Prof Ampalavanapillai Nirmalathas						
Contact:	<p>Melbourne School of Engineering Ground Floor, Old Engineering (Building 173)</p> <p>Current Students: Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au) Phone: 13 MELB (13 6352) +61 3 9035 5511</p> <p>Prospective Students: Email: eng-info@unimelb.edu.au (mailto:eng-info@unimelb.edu.au) Phone: + 61 3 8344 6944</p>						
Course Overview:	<p>THE COURSE STRUCTURE BELOW ONLY APPLIES TO RE-ENROLLING STUDENTS WHO COMMENCED THEIR STUDIES PRIOR TO 2008</p> <p>The single degree, Bachelor of Engineering Management (Electrical), requires the completion of 400 points usually over four years. Student who have not yet completed the requirements of the Bachelor of Engineering degree should see a course advisor.</p> <p>When setting the timetable every effort will be made to avoid clashes between the times of classes associated with these sets of subjects. Students should be aware however, that if it proves to be impossible to achieve a timetable without clashes in these sets of subjects, the Faculty reserves the right to modify course structures in order to eliminate the conflicts. Students will be advised during the enrolment period of the semester if the recommended courses need to be varied.</p>						
Objectives:	<p>Completing the Electrical Engineering Management degree will enable students to rigorously integrate the mathematics of signals, systems and information with the science of electrical phenomena, in the formulation and solution of problems in areas such as telecommunications, monitoring and automation, energy distribution, and digital computing. We aim to develop: scientific understanding of electrical phenomena as a basis for mathematical modelling and abstraction in analysis and design; problem-solving and design skills; the ability to construct simulations and laboratory experiments; and good communication skills.</p>						
Course Structure & Available Subjects:	-						
Subject Options:	<p>THERE IS NO FURTHER ENTRY INTO THIS COURSE.</p> <p>Note: Student who have not yet completed the requirements of the Bachelor of Engineering Management degree should see a course adviser.</p> <p>Final Year</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>ELEN90067 Electrical Engineering Capstone Project</td> <td>Not offered 2013</td> <td>25</td> </tr> </tbody> </table> <p>Four units from the Final year Electrical Engineering Electives (50 points in total) Management for Engineer 3 or equivalent (12.5 points) Commerce 200-level or 300-level subject</p>	Subject	Study Period Commencement:	Credit Points:	ELEN90067 Electrical Engineering Capstone Project	Not offered 2013	25
Subject	Study Period Commencement:	Credit Points:					
ELEN90067 Electrical Engineering Capstone Project	Not offered 2013	25					

Students are reminded that the Engineering Management (Electrical) degree completion requirements include a minimum of 37.5 points 200 or 300 level commerce subjects.

Final year Electrical Engineering Electives

Subject	Study Period Commencement:	Credit Points:
ELEN90051 Advanced Communication Systems	Not offered 2013	12.50
ELEN90052 Advanced Signal Processing	Semester 1	12.50
ELEN90053 Electronic System Design	Not offered 2013	12.50
ELEN90059 Lightwave Systems	Not offered 2013	12.50
ELEN90060 Power System Analysis	Not offered 2013	12.50
ELEN90061 Communication Networks	Semester 2	12.50
ELEN90062 High Speed Electronics	Semester 2	12.50
ELEN90064 Advanced Control Systems	Semester 2	12.50
ELEN90007 Wireless Communication Systems	Not offered 2013	12.50

Entry Requirements:

There will be no further entry into this course.

Core Participation Requirements:

For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website: <http://www.services.unimelb.edu.au/disability/>

Further Study:

On completion of a Bachelor of Engineering, students may choose to apply for candidature in a masters by research or PhD degree. They may also apply to undertake an a one year Advanced Masters coursework degree.

Graduate Attributes:

The Bachelor of Engineering is a professional degree. Graduates can obtain professional recognition by joining Engineers Australia who has accredited these programs. The Bachelor of Engineering also delivers on the University graduate attribute

Generic Skills:

An Engineering graduate has a unique skill set comprising a blend of technical, business and interpersonal skills. Upon completion of the Bachelor of Engineering at the University of Melbourne, students will have strong analytical skills, the ability to lead teams and projects and the creativity to look at problems in a way that provides innovative solutions. Our graduates are known for their high standards and professionalism, their understanding of global issues and their outstanding communication skills. For details, see "Objectives".
