Coordinator:	Mr Hamish Hill, Prof Qinghua Guo
Contact:	Environments and Design Student Centre Ground Floor, Baldwin Spencer (building 113) <i>Enquiries</i> Phone: 13 MELB (13 6352) Website: http://www.msd.unimelb.edu.au (http://www.msd.unimelb.edu.au%20)
Subject Overview:	This subject requires students to study and research construction and conservation methods of timber buildings and Gateways in Southern China, and to produce drawings and writings highlighting details of such buildings. Students are also required to produce virtual displays highlighting the chosen gateway, and possible alternatives, in their potential contexts.

	As well as the above students will be required to spend at least three hours a week in the construction workshop producing a full-size timber gateway that will be erected, initially, adjacent to the workshop
Objectives:	On completion students should have a clear understanding of the construction techniques of southern Chinese timber gateways and knowledge of the requirements and methods of their conservation.
Assessment:	Gateway model, group work due week 2 - 10%. Computer context modelling on A3 sheet, individual work due week 8 – 10%. Journal covering construction and research topic, individual work equivalent to 2000 words, due 7th June - 40%. Involvement in the construction and documenting of a full size timber gateway, group work throughout semester – 40%.
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Related Course(s):	Master of Architecture Master of Architecture
Related Majors/Minors/ Specialisations:	Melbourne School of Design multidisciplinary elective subjects (without prerequisites)
