Subject Overview:	This subject will give an overview of the tools that businesses use to manage their external environment. The subject addresses three main areas: negotiation skills, marketing and competitivestrategy. Students will use case studies and simulations to practice negotiation skills. Topics in marketing will include an overview of brands, creating a marketing plan and understanding customers. Finally the competitive strategy component of the subject will focus on the topics of gains from trade, how to price and how to understand and change the competitive environment.						
Objectives:	The aim of this subject is to give students an understanding of the external environment in which businesses operate. Topics are chosen to build skills and understanding in negotiating with others, understanding consumers and responding with appropriate marketing materials and being able to analyse the competitive nature of the market in which the business operates.						
Assessment:	Syndicate group assessments totalling 3,000 words or equivalent (60%), commencing in class 1 (submitted materials may include interim proposals, presentation, report); and a 3-hour end of subject examination (40%). Hurdle requirement: Students must pass the final examination to pass the subject.
