Contact:	Education Student Centre
Subject Overview:	This subject reviews current theories of learning disabilities in numeracy and their implications for instruction. Relevant diagnostic and instructional models are analysed in terms of their theoretical bases, empirical support and implications for implementation. Contemporary numeracy education programs and practices for use with students who have numeracy disabilities are analysed and evaluated. In addition, strategies for the provision of assistance at the systematic, school and classroom levels are examined.
Objectives:	Information not available
Assessment:	One written assignment totalling 4,000 words (100 per cent).
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
