| Subject Overview: | Have you ever wondered how language actually works? Or how it can be that a 6 year-old child can know more about their native language than the most sophisticated computers? This subject is a practical introduction to the nature of human language which gives a conceptual framework for discussing language and provides the tools required to analyse and describe all of the world's 6000+ languages. Central areas of linguistics will be covered using data from languages from all over the world, including speech sounds, word structure, sentence structure, meaning, language learning, and language change. |
| Objectives: | <ul style="list-style-type: none"> # have a general understanding of the nature of human language. # have begun to develop skills for describing and analyzing languages. # have gained a conceptual framework for thinking about and discussing language. |
| Assessment: | Problem-solving assignments totalling 2000 words 50% (due throughout the semester) and a 2-hour examination 50% (end of semester). This subject has the following hurdle requirements: Regular participation in tutorials is required with a minimum of 75% attendance. All pieces of written work must be submitted to pass this subject. Assessment submitted late without an approved extension will be penalised at 10% per day and in-class tasks missed without approval will not be marked. |
| Prescribed Texts: | An Introduction to Language (Australian edition) (Fromkin et al (eds)) Latest edition |
| Recommended Texts: | none |
