Research Project

The research project will be taken over four consecutive semesters and will begin on the Monday of the first semester of research project enrolment (semesters 1 or 2) (indicative for 2013: March 4 and July 29) and continue until the end of the final semester of research project enrolment. The research project work continues over summer and winter breaks, minus recreation leave of 4 weeks per year.

For how long and at what time within the enrolment the actual period of leave is to be taken needs to be negotiated with a student's supervisor.

The thesis will be due for submission at the end of the formal examination period of the final semester of research project enrolment (usually fourth semester) if an earlier date is not specified. The assessment requirements below are applicable to the entire 100 point Research Project:

- # A research proposal modelled on a research grant application style, due at the end of the first 12.5 points: 12.5%
- # A full literature review and research proposal seminar, due at the end of the first 25 points: 12.5%
- # A 25,000 word thesis and a research results seminar, due by the end of the full 100 points (i.e. at the end of year 2): 75%

Students select their research project load in consultation with their project supervisor and the program coordinator, and must enrol in at least 12.5 points of research project per semester. Therefore, in each semester students must be enrolled in one of the subjects listed here, with the total research project load equalling 100 points over the two years of full-time study.

EXAMPLE:

Year 1, semester 1: GEOG90010 Geography Research Project 12.5 pts

Year 1, semester 2: GEOG90010 Geography Research Project 12.5 pts

Year 2, semester 1: GEOG90011 Geography Research Project 25 pts

Year 2, semester 2: GEOG90013 Geography Research Project 50 pts

Subject	Study Period Commencement:	Credit Points:
GEOG90010 Geography Research Project	Not offered 2013	12.50
GEOG90011 Geography Research Project	Not offered 2013	25
GEOG90012 Geography Research Project	Semester 1	37.50
GEOG90013 Geography Research Project	Not offered 2013	50

Entry Requirements:

An undergraduate degree with a major in Ecology and Evolutionary Biology, Environmental Science, Earth, Ocean and Atmospheric Science, Geography or Zoology, with at least an H3 (65%) in the major, or equivalent.

Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research. Entry is subject to the capacity of the department to provide adequate supervision in, and resources for, a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module. Selection is not automatic and, in particular, is subject to competition.

Core Participation Requirements:

It is University policy to take all reasonable steps to minimise the impact of disability upon academic study and reasonable steps will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact upon their active and safe

	participation in a course are encouraged to discuss this with the relevant course coordinator and the Disability Liaison Unit.
Further Study:	The Master of Science offers a pathway to a PhD.
Graduate Attributes:	Graduates will: have the ability to demonstrate advanced independent critical enquiry, analysis and reflection; have a strong sense of intellectual integrity and the ethics of scholarship; have in-depth knowledge of their specialist discipline(s); reach a high level of achievement in writing, research or project activities, problem-solving and communication; be critical and creative thinkers, with an aptitude for continued self-directed learning; be able to examine critically, synthesise and evaluate knowledge across a broad range of disciplines; have a set of flexible and transferable skills for different types of employment; and be able to initiate and implement constructive change in their communities, including professions and workplaces.
