<b>Subject Overview:</b>	When, how and why do media change? In an epoch of increasingly rapid innovation, our crucial resource for answering this question is our knowledge and ideas about previous transitions and innovations. This subject investigates the intertwined histories of media and ideas about media. How does media change relate to cultural construction and interpretation, discursive and social formations, political economy, technology and the laws of physics? Recent media historiography has increased the historical depth and geographical range of the field, in the process proposing new ways to pose old questions such as "what is the impact of media on society?" Drawing on current research projects in the Media and Communication program, the subject will address such topics as the genealogies of contemporary media technologies, mediated democracy, media temporalities and political communication. It will place such projects in the history of philosophical engagement with media, a history which stretches back to the Biblical ban on images and Plato's attacks on writing. Relevant contemporary theories, which might include biopolitical, autonomist, actor-network and complexity approaches, will be studied and applied to the historical processes of past and present media change.
<b>Objectives:</b>	On completion of this subject: # students will be equipped to undertake research into historical aspects of contemporary media and media philosophy as well as historical topics in media studies; and # be able to understand processes of innovation, dissemination and adoption in future media.
<b>Assessment:</b>	Class presentation equivalent to 1000 words 25% (due during the teaching period), essay plan of 500 words 10% (due mid-semester), final reflective essay of 3500 words 65% (due in the examination period). Students are required to attend a minimum of 80% of classes in order to qualify to have their written work assessed. Any student who fails to meet this hurdle without valid reason will not be eligible to pass the subject. All required written work must be submitted in order to pass the subject. Essays submitted after the due date without an extension will be penalised 2% per day. Essays submitted after two weeks of the assessment due date without a

	formally approved application for special consideration or an extension will only be marked on a pass/fail basis if accepted.
<b>Prescribed Texts:</b>	A subject reader will be available.
