Subject Overview:	An international overview of how different governments approach QA in tertiary education, including key concepts, the roles of QA agencies, the use of standards and measures and processes such as self-assessment and external review.						
Objectives:	To present to participants the various approaches to external quality assurance used internationally; illustrate these with case studies; consider strengths and weaknesses and highlight emerging challenges for national QA systems and QA agencies in a context of cross-border tertiary education and moves for greater mutual recognition of tertiary qualifications.						
Assessment:	<ul style="list-style-type: none"> • Active participation in weekly discussion board (4 x 250 word postings); • Virtual team project report (3000 words) due mid-semester; • Compulsory webinar attendance, This is a pass/fail subject. Participants receive feedback for each task, and must pass all tasks. 						
Prescribed Texts:	Selected readings and notes to be provided prior to commencement						
Breadth Options:	This subject is not available as a breadth subject.						
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees						
Generic Skills:	On successful completion of this subject participants will be able to distinguish between different approaches to external quality assurance and critically examine how well a given model fits a specific national context.
