Contact:	Dr. Aaron Martin: aaron.martin@unimelb.edu.au						
Subject Overview:	This subject provides students with training in applied social science research methods. Students will learn how to connect a research question with appropriate research design and methodology and acquire practical skills in utilising different research methods and tools, including analysing data and presenting results. The subject will enable students to develop a critical understanding of the strengths and weaknesses of quantitative, qualitative and mixed methods and the practical skills to carry out social science research.						
Objectives:	<ul style="list-style-type: none"> # To develop an ability to relate different research questions to appropriate research methods # To develop a critical understanding of how different research methods are executed # To develop practical experience in applying different research methods # To develop an understanding of the ethical issues associated with research # To develop the capacity to undertake and evaluate social science research. 						
Assessment:	1. A Short Research Design of 1000 words (20%) due early in the semester; 2. In Class Practical Tasks equivalent to 1000 words (30%) due Mid-Semester; 3. A Research Project Assignment of 2000 words (50%) due during the examination period. Hurdle Requirement: This subject has a minimum Hurdle Requirement of 75% tutorial attendance. Regular participation in tutorials is required. Assessment submitted late without an approved extension will be penalised at 10% per working day. In-class tasks missed without approval will not be marked. All pieces of written work must be submitted to pass this subject.						
Prescribed Texts:	A reading pack will be available for purchase from the University Bookshop						
Breadth Options:	This subject is not available as a breadth subject.						
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees						

Generic Skills:	<p>Students who successfully complete this subject should:</p> <ul style="list-style-type: none"> # Understand methodologies and approaches to addressing contemporary issues in the social sciences. # Be able to apply theories and methods in an integrated fashion to examine and explain issues in the social sciences. # Apply critical thinking and analysis skills. # The ability to think in theoretical and applied terms about social issues. # Demonstrate written communication skills. # Demonstrate a capacity to undertake independent research in social sciences.
