Subject Overview:	This subject will develop skills in facilitating group music therapy. Lectures will focus on developing an understanding of group dynamics in the therapeutic context using practical experiences of group improvisation. Skills in the analysis of the musical material of groups will be taught using tools identified in the literature. Students will learn to identify structured and dynamic group interventions, based on assessed client needs. Group song writing will be taught, based on skills learned in individual song writing. Skills in working towards performances with clients will be covered.
Objectives:	On completion of this subject, students should have developed: <ul style="list-style-type: none"> # Ability to perform confidently in front of an audience; # Ability to search for popular materials on the internet; # Ability to recognise and process group dynamics; # Skill to work towards musical performance in the therapeutic context; # Ability to analyse musical improvisation created in therapy.
Assessment:	On Campus Students: One 1,500-word written assignments due mid-semester (50%); end of semester practical performance (50%). Blended Learning Students: One 1,500-word written assignments due mid-semester (50%); end of semester recorded practical performance, submitted online (50%).
Prescribed Texts:	Gardstron, S.C. (2007). Music Therapy Improvisation for Groups: Essential Leadership Competencies. Gilsum, NH: Barcelona Publishers.
