

NURS90031 Complexity in Cancer & Palliative Care

Credit Points:	12.50
Level:	9 (Graduate/Postgraduate)
Dates & Locations:	This subject is not offered in 2013. Off campus (Peter MacCallum Cancer Centre) and/ or distance learning
Time Commitment:	Contact Hours: 36 hours off-campus lectures (Peter MacCallum Cancer Centre) and/ or distance learning Total Time Commitment: In addition to the subject contact hours, students are expected to devote approximately 6 hours a week to this subject.
Prerequisites:	None
Corequisites:	None
Recommended Background Knowledge:	None
Non Allowed Subjects:	None
Core Participation Requirements:	It is University policy to take all reasonable steps to minimise the impact of disability upon academic study and reasonable adjustments will be made to enhance a student's participation in the University's courses. Students who think their disability will impact on meeting this requirement are encouraged to discuss this matter with the Course Coordinator and the Disability Liaison Unit.
Contact:	Nursing Melbourne School of Health Sciences The University of Melbourne Level 1, 200 Berkeley St Carlton Victoria 3010 AUSTRALIA T: +61 3 13 MELB F: +61 3 8344 4188 E: nursing-enquiries@unimelb.edu.au (mailto:nursing-enquiries@unimelb.edu.au) W: www.nursing.unimelb.edu.au (http://www.nursing.unimelb.edu.au/)
Subject Overview:	This subject focuses on the assessment, planning, implementation and evaluation of care for patients experiencing complex needs in cancer or palliative care settings. Essential concepts relating to health promotion and surveillance, advanced chemotherapy/ radiotherapy principles and practices, newer treatment modalities, sub specialty nursing interventions and complex symptom sequelae management will be explored. Students then engage in problem solving activities to apply these concepts to specialty specific assessment and management to inform their practice as proficient level specialty practitioners. Students are also challenged to think beyond the physical aspects of medical interventions to consider the psychosocial, ethical and legal implications of nursing practice in Cancer & Palliative Care settings.
Objectives:	Students will be expected to be able to demonstrate their proficiency in specialty nursing practice through: <ul style="list-style-type: none"> # an understanding of the assessment, planning and management of patients whose cancer is characterized by complex pathophysiological processes that requires multi-system and multi-disciplinary interventions; # an ability to resource professional literature and apply research at the 'cutting edge' of knowledge about patient management and specialty nursing practice in the cancer and palliative care practice setting; # an understanding of the impact of cancer, curative and palliative interventions and technology upon the psychosocial and moral well-being of patients and their families; # an appreciation of the ethical and legal implications of cancer and palliative care nursing practice for the nurse: as an individual; as a member of a disciplinary and multi-disciplinary team; as an employee of the healthcare institution and as a care provider for the patient and his/her family experiencing cancer and/or palliative care;

	<ul style="list-style-type: none"> # an advanced understanding of the changing knowledge base in the specialist area; # an ability to evaluate and synthesise the research and professional literature in the discipline; # advanced skills and techniques applicable to the discipline; # well-developed problem-solving abilities in the discipline area, characterised by flexibility of approach.
Assessment:	Written assignment of 2500 words (55%) - Due mid semester Closed book, 2 hour written examination (45%) - At end of semester
Prescribed Texts:	None
Recommended Texts:	A list of recommended texts will be supplied to students on enrolment in the subject.
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of the subject students should have developed the following generic skills of the Melbourne graduate and postgraduate coursework student:</p> <ul style="list-style-type: none"> # a capacity to engage where appropriate with issues in contemporary society.
