<b>Course Overview:</b>	The Postgraduate Certificate in Primary Care Nursing is a tailored course for nurses working in a primary care setting that delivers comprehensive and evidence-based education in chronic disease, prevention, women's health, mental health or youth health. Commonwealth government policy priorities in primary health care include an enhanced role for the practice nurse and this has been recognised in the course subjects. This course is delivered by flexible education (distance, online and face-to face).																								
<b>Objectives:</b>	<p>On completion students should be able to:</p> <ul style="list-style-type: none"> <li># Apply an evidence based approach to screening, health promotion and an advanced clinical area of their choice</li> <li># Consult with patients in primary care using a preventive approach</li> <li># Identify the elements of systematic chronic disease management</li> </ul>																								
<b>Course Structure &amp; Available Subjects:</b>	The Postgraduate Certificate in Primary Care Nursing is a 50-credit-point, part-time, coursework program comprising of two (2) core subjects and one (1) elective subject.

<b>Core Participation Requirements:</b>	<p>For the purposes of considering requests for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this course are articulated in the Course Overview, Objectives and Generic Skills sections of this entry. It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this course are encouraged to discuss this matter with a Faculty Student Adviser and the Disability Liaison Unit: <a href="http://www.services.unimelb.edu.au/disability/">http://www.services.unimelb.edu.au/disability/</a></p>		
<b>Graduate Attributes:</b>	<p>It will prepare nurses to: be a vital member of the general practice/primary care team; contribute to the clinical care of patients; be involved in quality improvement processes; facilitate change in the practice setting; improve access and health outcomes for patients; provide better management of chronic conditions and an increased focus on prevention.</p>
