

SCIE90005 Ethics and Responsibility in Science

Credit Points:	12.50
Level:	9 (Graduate/Postgraduate)
Dates & Locations:	This subject is not offered in 2013.
Time Commitment:	Contact Hours: 24 hours comprising 6 x one-hour lectures, 6 x three-hour workshops. Total Time Commitment: 80 hours
Prerequisites:	None
Corequisites:	None
Recommended Background Knowledge:	None
Non Allowed Subjects:	None
Core Participation Requirements:	It is University policy to take all reasonable steps to minimise the impact of disability upon academic study and reasonable steps will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact upon their active and safe participation in a subject are encouraged to discuss this with the relevant subject coordinator and the Disability Liaison Unit.
Contact:	<p>Assoc Prof Laura Parry Email: ljparry@unimelb.edu.au (mailto:ljparry@unimelb.edu.au) Phone: 8344 4379</p> <p>Dr Kath Handasyde Email: kathrine@unimelb.edu.au (mailto:kathrine@unimelb.edu.au) Phone: 8344 4357</p>
Subject Overview:	What is conflict of interest? What should a scientist do when he or she finds fraud is occurring on a scientific research team? How does a scientist write and defend an animal ethics submission and get it approved? What are the ethical issues associated with peer review? This subject is intended to give students a broad overview of research ethics in a scientific context. It will include topics on scientific integrity; conflicts of interest; data recording management; authorship and peer review; animal experimentation and regulations; privacy and confidentiality of records; and, finally, research in humans.
Objectives:	<p>Upon completion of this subject students should:</p> <ul style="list-style-type: none"> # be aware of the different ethical responsibilities of individuals in the scientific workplace; # develop first-hand experience in critical thinking and appraisal related to ethics; # understand the ethical issues associated with recording and storage of data, and reporting research findings; # be able to implement the processes involved in obtaining appropriate ethical approval to conduct human and animal research.
Assessment:	Two workshop assignments (1200-1500 words) due between weeks 3 and 6 of the semester (each worth 15%, total 30%); a 2000-word essay due mid-semester (30%); a peer review on either an animal or human ethics application (1000-1200 words) due at the end of the semester (20%); attendance and participation in class discussions (20%).
Prescribed Texts:	No specific text will be prescribed for this subject but recommended reading material will be prescribed for each topic covered in the subject.
Recommended Texts:	Relevant reading material will be recommended for background reading in each topic area.

Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>The subject will provide students with the opportunity to develop their own sense of intellectual integrity and ethics of scholarship.</p> <p>They should build upon generic skills including:</p> <ul style="list-style-type: none"> # the ability to critically assess and assimilate new knowledge through a range of information and communication technologies; # high level ability to engage in collaborative learning and confront unfamiliar problems in an academic environment. <p>They will learn how to apply these skills and be able to use them effectively in their professions and workplaces.</p>
Notes:	Students will be expected to regularly access an internet-enabled computer.
