

## Conservation and Restoration

<b>Year and Campus:</b>	2014
<b>Coordinator:</b>	Professor Roger Cousens, Department of Resource Management, MSLE; and Dr Jasmin Hufschmid, Faculty of Veterinary Science
<b>Contact:</b>	<p><b>Office for Environmental Programs</b> Ground Floor, Walter Boas Building (building 163)</p> <p><i>Enquiries</i> Phone: 13 MELB (13 6352) Email: <a href="mailto:13MELB@unimelb.edu.au">13MELB@unimelb.edu.au</a> (<a href="mailto:13MELB@unimelb.edu.au">mailto:13MELB@unimelb.edu.au</a>)</p>
<b>Overview:</b>	<p>Conservation and Restoration is offered as a major field of study in the Master of Environment degree.</p> <p>Biodiversity loss is one of the key environmental challenges globally. Sustainable societies depend on successful conservation and restoration of this diversity, at genetic, species, community and landscape scales.</p> <p>Students will explore the biophysical and social factors shaping endeavours to conserve and restore wildlife and vegetation. They will develop skills for planning and managing biodiversity at species, community and landscape scales. The cross-faculty teaching program ensures students have a sound understanding of the ecological principles underpinning conservation and restoration, and an appreciation of the political and community dimensions of establishing and implementing these plans.</p> <p>The major is suitable for people with undergraduate studies and/or professional work experience in life sciences, forestry, natural resource management, agriculture, parks and wildlife management, and environmental engineering. It is also an appropriate major for government and industry professionals working in conservation and development who are looking to upgrade or link their skills to environmental management.</p> <p>Graduates can expect to find employment in regulatory agencies, local and state government authorities, environmental consulting companies, and industries with international interests in developing economies.</p>
<b>Learning Outcomes:</b>	<p>Students who complete the Master of Environment will have:</p> <ul style="list-style-type: none"> <li># Knowledge to undertake professional practice in environment or sustainability, including:</li> <li># Demonstrated capacity to:</li> </ul> <p>Upon successful completion of the Conservation and Restoration specialisation, students will be able to:</p> <ul style="list-style-type: none"> <li># Analyse the biophysical and social factors influencing ecosystem and species functioning at genetic, species, community and landscape scales.</li> <li># Propose strategies and plans for conserving and restoring ecosystems</li> </ul> <p>Collaborate with professionals from across disciplines and sectors to develop, implement and evaluate conservation and restoration plans</p>
<b>Structure &amp; Available Subjects:</b>	<p>Students will be required to complete the two core subjects, plus choose three subjects from the compulsory specialisation subject list. Students must also undertake electives to make up the balance of the award. The selection of electives is made in consultation with the Conservation and Restoration major coordinator.</p> <p>A full list of subjects available within this specialisation can be found at <a href="http://environment.unimelb.edu.au/courses/streams/conservation_restoration_and_landscape_management">http://environment.unimelb.edu.au/courses/streams/conservation_restoration_and_landscape_management</a> (<a href="http://environment.unimelb.edu.au/courses/streams/conservation_restoration_and_landscape_management">http://environment.unimelb.edu.au/courses/streams/conservation_restoration_and_landscape_management</a>)</p>
<b>Subject Options:</b>	<p><b>Core Subjects</b></p> <p>Students are required to complete the subjects:</p>

Subject	Study Period Commencement:	Credit Points:
MULT90004 Sustainability Governance and Leadership	March, August	12.50
MULT90005 Interdisciplinarity and the Environment	Semester 2	12.50

### Compulsory Subjects

and choose 3 subjects from the list of:

Subject	Study Period Commencement:	Credit Points:
FRST90034 Ecological Restoration	September	12.50
GEOG90003 Integrated River & Catchment Management	Semester 1	12.50
NRMT90002 Management of Plant and Animal Invasions	Semester 2	12.50
VETS90016 Wildlife Management	Semester 1	12.50

### Elective Subjects

plus undertake electives to make up the balance of the award. The recommended list of electives includes:

Subject	Study Period Commencement:	Credit Points:
AGRI90066 Soil Science and Management	Semester 1	12.50
GEOG90021 Conservation and Cultural Environments	Semester 1	12.50
BIOL90002 Biometry	July	12.50
BOTA90005 Flora of Victoria	February	12.50
CHEM90007 Environmental Chemistry	Semester 1	12.50
ECON90016 Environmental Economics and Strategy	Semester 1	12.50
ENST70001 Environmental Research Proj (50 Long)	Semester 1, Semester 2	25
ENST90002 Social Impact Assessment and Evaluation	Semester 2	12.50
ENST90005 Environmental Policy	Semester 2	12.50
ENST90006 Environmental Research Review (12.5)	Semester 1, Semester 2	12.50
ENST90007 Environmental Research Project (25)	Semester 1, Semester 2	25
ENST90016 Environmental Research Project (50)	Semester 1, Semester 2	50
EVSC90014 Environmental Risk Assessment	November	12.50
EVSC90015 Environmental Impact Assessment	Semester 1	12.50
GEOL90005 Hydrogeology	Semester 1	12.50
GEOM90008 Foundations of Spatial Information	Semester 1	12.50
LAWS70068 Environmental Law	September	12.50
MAST40001 Research Philosophies and Statistics	Semester 1	12.50
MAST90007 Statistics for Research Workers	June	12.50
NRMT90004 Conservation Genetics	Not offered 2014	12.50

	FRST90016 Trees in a Changing Climate	November	12.50
	FRST90022 Forests and Water	September	12.50
	NRMT90007 Community Natural Resource Management	Semester 2	12.50
	FRST90033 Farm Trees & Agroforestry	October	12.50
	NRMT90014 Sustainable Landscapes	Semester 1	12.50
	ENST90024 Environmental Research Project - 25 Long	Semester 1, Semester 2	12.50
	ENST90025 Environmental Industry Research (25)	Semester 1, Semester 2	25
	ENST90026 Environmental Industry Research: 25 Long	Semester 1, Semester 2	12.50
	ENST90020 Environmental Industry Research (50)	Semester 1, Semester 2	50
	ENST70002 Environmental Industry Research: 50 Long	Semester 1, Semester 2	25
	DEVT90002 Internship in Development	January, Semester 1, Semester 2	12.50
	DEVT90008 International Internship in Development	January, Semester 1, Semester 2	25
