

Botany

Year and Campus:	2014									
Coordinator:	Dr Mike Bayly									
Contact:	<p>Melbourne Graduate School of Science Faculty of Science The University of Melbourne Victoria 3010</p> <p>Tel: + 61 3 8344 6128 Fax: +61 3 8344 3351</p> <p>Web: http://graduate.science.unimelb.edu.au/ (http://graduate.science.unimelb.edu.au/)</p>									
Overview:	The Graduate Certificate allows students who have completed an undergraduate degree to re-focus or expand their body of knowledge by completing the requirement of one of the undergraduate majors (or equivalent) in the Bachelor of Science not already completed. The Graduate Certificate provides a pathway to the Master of Science Streams.									
Learning Outcomes:	<p>Students who complete the Graduate Certificate should:</p> <ul style="list-style-type: none"> # Demonstrate an independent approach to knowledge that uses rigorous methods of inquiry and appropriate theories and methodologies that are applied with intellectual honesty and a respect for ethical values; # Apply critical and analytical skills and methods to the identification and resolution of problems; # Act as informed and critically discriminating participants within the community of scholars, as citizens and in the work force; # Communicate effectively; # Commit to continuous learning; # Be proficient in the use of appropriate modern technologies, such as the computer and other information technology systems, for the acquisition, processing and interpretation of data. <p>-</p> <p>Core participation requirements: Fieldwork, practicals and laboratory experiments</p> <p>This discipline requires all students to actively, independently and safely participate in all practical classes, utilising a range of observational, communication, motor, intellectual, and behavioural and social skills. Visual acuity, muscle coordination and balance are essential for participation. Details of the participation requirements can be found at http://www.vet.unimelb.edu.au/docs/CoreParticipationReqsBSc.pdf (http://www.vet.unimelb.edu.au/docs/CoreParticipationReqsBSc.pdf)</p> <p>The sites essential to this fieldwork are not wheel chair accessible and may require students to traverse broken ground. Students are also required to undertake experiments including specimen and microscope work with assessment reliant on careful observation and visual interpretation of results. Practical may also involve handling and working with animals.</p>									
Structure & Available Subjects:	Students must complete 50 points of study at Level 3.									
Subject Options:	<p>Subject prerequisites: at least three level 2 or above Animal Science Biology, Botany, Anatomy, Physiology, Biochemistry and Molecular Biology, Ecology, Genetics subjects, or equivalent.</p> <p>Four of:</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>BOTA30005 Plant Molecular Biology & Biotechnology</td> <td>Semester 2</td> <td>12.50</td> </tr> <tr> <td>BOTA30006 Field Botany</td> <td>January</td> <td>12.50</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	BOTA30005 Plant Molecular Biology & Biotechnology	Semester 2	12.50	BOTA30006 Field Botany	January	12.50
Subject	Study Period Commencement:	Credit Points:								
BOTA30005 Plant Molecular Biology & Biotechnology	Semester 2	12.50								
BOTA30006 Field Botany	January	12.50								

	BOTA30002 Plant Evolution	Semester 2	12.50
	BOTA30001 Marine Botany	November	12.50
	BOTA30004 Vegetation Management and Conservation	Semester 2	12.50
	BOTA30007 Marine Phytoplankton of Australia	Not offered 2014	12.50
	BOTA30003 Environmental Plant Physiology	Semester 1	12.50
