Course Overview:	THE COURSE STRUCTURE BELOW ONLY APPLIES TO RE-ENROLLING STUDENTS WHO COMMENCED THEIR STUDIES PRIOR TO 2008 When setting the timetable every effort will be made to avoid clashes between the times of classes associated with these sets of subjects. Students should be aware however, that if it proves to be impossible to achieve a timetable without clashes in these sets of subjects, the Faculty reserves the right to modify these course structures in order to eliminate the conflicts. Students will be advised during the enrolment period of the semester if the recommended courses need to be varied.																								
Learning Outcomes:	See course overview.																								
Course Structure & Available Subjects:	Students must complete 400 credit points comprising the core program of discipline subjects. Students who have not yet completed the requirements of the Bachelor of Engineering (Biomedical) Biocellular degree should see the course co-ordinator.
