<b>Subject Overview:</b>	This subject is a specialised oenology subject that builds on the principles and practices developed in the oenology components of AGRI90031 Winegrowing and AGRI90032 Winegrowing Operations. It reviews the results of recent wine research and provides in-depth treatment of a range of winemaking techniques and practices. The subject examines advanced and alternative production processes including the management of fermentation, optimising the activity of yeast and bacteria, additions and fining, as well as the assessment of grape quality, waste management, laboratory analysis techniques and equipment selection. The interrelationship between these aspects of the winemaking process is examined to provide an appreciation of the impact that these diverse contributions can make. It is envisaged that the detailed study of these facets will provide the student with an authoritative knowledge of winemaking and the processes that optimise wine quality.												
<b>Learning Outcomes:</b>	Information not available												

<b>Assessment:</b>	Practical book from residential School (1000 words - 20%) due one week after the residential school Assignment 1 (2000 words - 20%) due week 7 Assignment 2 (2000 words - 20%) due week 12 Examination x 3 hours (40%)
<b>Prescribed Texts:</b>	Rankine, B. (2004), Making Good Wine. Pan Macmillan, Sydney.
<b>Breadth Options:</b>	This subject is not available as a breadth subject.
<b>Fees Information:</b>	Subject EFTSL, Level, Discipline & Census Date, <a href="http://enrolment.unimelb.edu.au/fees">http://enrolment.unimelb.edu.au/fees</a>
