Contact:	Nicole Tse nicoleat@unimelb.edu.au
Subject Overview:	This subject examines the history and manufacture of traditional and modern materials, their properties and behaviour, and the processes of their chemical and physical deterioration. During the pre-teaching period students are expected to complete the course readings, review the lectures and any other course preparation as outlined on the LMS. The LMS will become available at the commencement of the pre-teaching dates.
Learning Outcomes:	Upon completion of this subject students should: <ul style="list-style-type: none"> # be able to identify and characterise artefacts using their knowledge of materials and techniques and will be able to locate and assess them in their technological context # have gained an understanding of the chemical and physical behaviour of cultural heritage items including basic mechanisms of deterioration
Assessment:	A 2000 word written assignment (35%) and a 3000 word essay (65%) will be due over the assessment period from 24 March - 28 April 2014. Hurdle requirement: students must attend a minimum of 75% of workshops/tutorials in order to pass this subject. Assessment submitted late without an approved extension will be penalised at 2% per day; after five days, no late assessment will be accepted. In-class tasks missed without approval will not be marked. All pieces of written work must be submitted to pass this subject.
Prescribed Texts:	A subject reader will be available in the pre-teaching period. Additional texts may be recommended.
Breadth Options:	This subject is not available as a breadth subject.
