

DASC20012 Comparative Nutrition and Digestion

BIOL10002: Comparative Nutrition and Digestion

Credit Points:	12.50									
Level:	2 (Undergraduate)									
Dates & Locations:	This subject is not offered in 2014.									
Time Commitment:	Contact Hours: 42 hours Total Time Commitment: Contact hours: 42. Estimated total time commitment (including non-contact time): 120 hours.									
Prerequisites:	<table> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> <tr> <td>BIOL10002 Biomolecules and Cells</td> <td>Semester 1</td> <td>12.50</td> </tr> <tr> <td>BIOL10004 Biology of Cells and Organisms</td> <td>Semester 1</td> <td>12.50</td> </tr> </table> <p> Either of the above AND 12.5 credit points in a first year Biology subject </p>	Subject	Study Period Commencement:	Credit Points:	BIOL10002 Biomolecules and Cells	Semester 1	12.50	BIOL10004 Biology of Cells and Organisms	Semester 1	12.50
Subject	Study Period Commencement:	Credit Points:								
BIOL10002 Biomolecules and Cells	Semester 1	12.50								
BIOL10004 Biology of Cells and Organisms	Semester 1	12.50								
Corequisites:	None									
Recommended Background Knowledge:	None									
Non Allowed Subjects:	None									
Core Participation Requirements:	For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website: http://www.services.unimelb.edu.au/disability/									
Contact:	<p> Melbourne School of Land & Environment Student Centre Ground Floor, Melbourne School of Land and Environment (building 142) <i>Enquiries</i> Phone: 13 MELB (13 6352) Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au) </p>									
Subject Overview:	This subject allows students to develop an awareness of the major physiological processes and metabolic basis of nutritional requirements; to understand the nutritional qualities of food, and develop skills to ensure a balanced diet can be formulated for a range of mammals; to be familiar with the impact of dietary imbalances; and to understand the role of food in behavioural, psychological and social contexts.									
Learning Outcomes:	<p>On completion of this subject students should be aware of:</p> <ul style="list-style-type: none"> # the physiological and metabolic basis of nutritional requirements; # the nutritional qualities of particular categories of food # the principles and practices of feed evaluation and ration formulation # the principles and diagnosis of nutritional imbalances and/or malnutrition # and familiar with computer based nutritional models and simulations to solve complex nutritional problems. 									
Assessment:	Two-hour written final examination (50%). Computer simulation and written assessment of 2000 words equivalent (50%) (with 3 stage assessment strategy, submission at week 4 (10%), week 7 (15%) and week 12 (25%)).									

Prescribed Texts:	Information Not Available
Breadth Options:	<p>This subject potentially can be taken as a breadth subject component for the following courses:</p> <ul style="list-style-type: none"> # <u>Bachelor of Arts</u> (https://handbook.unimelb.edu.au/view/2014/B-ARTS) # <u>Bachelor of Commerce</u> (https://handbook.unimelb.edu.au/view/2014/B-COM) # <u>Bachelor of Environments</u> (https://handbook.unimelb.edu.au/view/2014/B-ENVS) # <u>Bachelor of Music</u> (https://handbook.unimelb.edu.au/view/2014/B-MUS) <p>You should visit learn more about breadth subjects (http://breadth.unimelb.edu.au/breadth/info/index.html) and read the breadth requirements for your degree, and should discuss your choice with your student adviser, before deciding on your subjects.</p>
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of the subject the students should have developed the following generic skills:</p> <ul style="list-style-type: none"> # academic excellence # greater in-depth understanding of scientific disciplines and of the practical and ethical aspects of working in the nutrition industry # the student's flexibility and level of transferable skills should be enhanced through improved time management # enhanced ability to communicate their ideas effectively in both written and verbal formats.
Notes:	<p>This subject is available for science credit to students enrolled in the BSc (new degree only).</p> <p>Q Fever</p> <p>Students enrolling in the Melbourne School of Land and Environment are advised that some courses of study may put them at an increased risk of contracting Q Fever. Q Fever is a relatively common preventable condition which, while rarely fatal, can cause a severe acute illness and can result in damage to heart valves and chronic fatigue. It is recommended that students consider undertaking screening and vaccination for Q Fever prior to commencement of study. Students may be required to provide proof of vaccination prior to undertaking some coursework. Your course coordinator will advise you of this requirement prior to commencement of the study semester. Vaccine costs for students are not covered by the Pharmaceutical Benefit Scheme, Medicare, or by the University. Some students with full private medical coverage (which has hospital and ancillary cover) may receive partial re-imbursement for vaccine costs.</p> <p>http://www.land-environment.unimelb.edu.au/current-students/your-subjects/q-fever-information.html (http://www.land-environment.unimelb.edu.au/current-students/your-subjects/q-fever-information.html)</p>
