Subject Overview:	This subject uses economic theory to analyse globalisation in the world economy. First, it introduces fundamental theories of trade in international economics, and shows how economists see the process of globalisation. It then uses those theories to analyse major events and trends in the politics and history of the world economy's evolution, including the industrial revolution, the Bretton Woods era, the rise and fall of Stalinist economies, and crises including the Asian currency crisis and the Global Financial Crisis. Finally, it focuses on political economy and contemporary issues in globalisation, including poverty and inequality, the environment, security, and the role of institutions. Note that in Semester 1, this subject is offered only online as part of the U21 Certificate in Global Issues – a multidisciplinary program offered jointly by the Universities of British Columbia, Hong Kong, Melbourne, and Nottingham. It gives global context to undergraduate degrees through online learning and student exchange. While this version of the subject can be taken as part of the standard University of Melbourne degree sequence, students intending to do so should contact the subject coordinator.						
Learning Outcomes:	<ul style="list-style-type: none"> # Apply analytical tools of international economics such as mainstream models and theories of international trade and their usefulness in analysing globalisation; # Apply these tools and principles in interpreting and analysing major economic and political factors underlying the evolution of globalisation throughout the 19th and 20th centuries; # Critically analyse arguments and evidence about the causes and effects of globalisation, including issues such as poverty and inequality, the role of states and institutions in helping or hindering globalisation, the effect of globalisation upon economic and state security, and the effect of globalisation upon the environment. 						
Assessment:	Online test 1: Semester 1, Week 2 (5%) Online test 2: Semester 1, Week 3 (5%) Written work not exceeding 2000 words: Semester 1, Week 4 (30%) Research proposal, not exceeding 1000 words: Semester 1, Week 7 (20%) Research essay, 2000 words: Semester 1, Week 12 (40%) Online test 1: Semester 2, Week 3 (5%) Online test 2: Semester 2, Week 4 (5%) Short essay 1, 1000 words: Semester 2, Week 8 (15%) Short essay 2, 1000 words: Semester 2, Week 12						

	(15%) Tutorial attendance and participation : Semester 2, throughout (10%) End-of-semester take-home exam, 2000 words: Semester 2, exam period (40%)
Prescribed Texts:	In Semester 1, the prescribed text is Salvatore, Dominick. 2005. Introduction to International Economics. USA: John Wiley & Sons. In Semester 2, a subject reader will be provided.
