Subject Overview:	<p>This subject prepares teacher candidates for teaching secondary school geography in years 7-12. Teacher candidates will use, develop and critically evaluate resources for teaching secondary geography. In particular, they will draw upon and elaborate the mandated geography curriculum guidelines.</p> <p>Key areas of the course are planning and organisation; teaching and learning; recording and assessment; geographical skills; and resources for learning. The key concepts of geography will be studied with an emphasis placed on how each concept can be learned by 11 to 18 year olds.</p> <p>The course includes a detailed study of senior geography including practical and theoretical issues in planning units of work. State and national curriculum policy documents will be used to explore ways that geography can be organised to meet the different learning needs of students in the middle years of schooling.</p> <p>Pedagogical approaches will include those that advance critical thinking, metacognition, inquiry and spatial literacy. Topics include the value and place of different kinds of geography and their links to other disciplines; the development of geographical skills and concepts; the relationship between geographical knowledge and participatory citizenship; the pursuit of respect and valuing of diversity; and a focus on the rights of all people; social justice and sustainability.</p> <p>Teacher Candidates will use the geography education literature to inform their teaching practices and engage in debates about the nature and purpose of geography and geography education.</p>
